Total Annual Burden: 2,891 hours.

Total Annual Cost: No Cost.

Needs and Uses: In an effort to facilitate the process of terrestrial providers taking steps to ensure their subscribers' access to the 911 system in areas where they use SCS arrangements to expand coverage to their end-users and thus comply with the new *Interim 911 Requirements for Supplemental Coverage from Space* as established in Section 9.10(t), the Commission adopted certain information collection requirements for those CMRS providers.

Annual Reporting Requirement.

Under Section 9.10(t)(3), each CMRS provider that utilizes SCS arrangements to expand its coverage areas for providing service to its end-user subscribers must maintain records of all SCS 911 voice calls and SCS 911 text messages received on its network and received at its emergency call center. By October 15 of each year, each CMRS provider that utilizes SCS arrangements to expand its coverage areas for providing service to its end-user

subscribers must submit a report to the Commission regarding SCS 911 voice calls and 911 text messages, and its emergency call center data, current as of September 30 of that year. These reports must include, at a minimum: (i) The name and address of the CMRS provider, the address of that CMRS provider's emergency call center, and the contact information of the emergency call center; (ii) The aggregate number of SCS 911 voice calls and SCS 911 text messages received by the network of the CMRS provider that provides SCS service to its end-user subscribers during each month during the relevant reporting period; (iii) The aggregate number of SCS 911 voice calls and SCS 911 text messages received by the emergency call center each month during the relevant reporting period; (iv) The aggregate number of SCS 911 voice calls and SCS 911 text messages received by the emergency call center each month during the relevant reporting period that required forwarding to a PSAP and how many did not require forwarding to a PSAP; (v) The aggregate number of SCS 911 voice calls that were routed using location information that met the timeliness and accuracy thresholds defined in paragraphs (s)(3)(i)(A) and (B) of this section; (vi) The aggregate number of SCS 911 voice calls and SCS 911 text messages that were routed using location information that did not meet the timeliness and accuracy thresholds defined in paragraphs (s)(3)(i)(A) and (B) of this section; and (vii) an explanation of how the SCS deployment, including network architecture, systems, and procedures, will support routing SCS 911 voice calls and SCS 911 text messages to the geographically appropriate PSAP with sufficient location information in compliance with paragraph (t)(2) of this section. The Commission would use the data generated by this annual information collection to monitor CMRS provider compliance as well as analyze the growth and development of 911 system access for end-users.

One-Time Privacy Certification Requirement. Under Section 9.10(t)(4), CMRS providers that utilize SCS arrangements to expand their coverage areas for providing service to their end-user subscribers must certify on a one-time basis that neither they nor any third party they rely on to obtain location information or associated data used for compliance with paragraph (t)(2)(i) or (ii) will use such location information or associated data for any non-911 purpose, except with prior express consent or as otherwise

permitted or required by law. The certification must state that the CMRS provider and any third parties it relies on to obtain location information or associated data used for compliance with paragraph (t)(2)(i) or (ii) have implemented measures sufficient to safeguard the privacy and security of such location information or associated data. CMRS providers that utilize SCS arrangements to expand their coverage areas for providing service to their end-user subscribers must submit this one-time certification in the Commission's Electronic Comment Filing System on the due date of the first report made under paragraph (t)(3) of this section. The Commission would use the data generated by this annual information collection to monitor CMRS provider compliance as well as analyze the growth and development of 911 system access for end-users.

One-time Subscriber Notification Requirement. Under Section 9.10(t)(5), each CMRS provider that utilizes SCS arrangements to expand its coverage areas for providing service to its end-user subscribers shall specifically advise every subscriber, both new and existing, in writing prominently and in plain language, of the circumstances under which 911 service for all SCS 911 calls, or SCS 911 text messages may not be available via SCS or may be in some way limited by comparison to traditional enhanced 911 service.
