DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2009–0116]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on September 15, 2021, Union Pacific Railroad (UP) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236 (Rules, Standards, and Instructions Governing the Installation, Inspection, Maintenance, and Repair of Signal and Train Control Systems, Devices, and Appliances). The relevant FRA Docket Number is FRA–2009–0116.

Specifically, UP requested an extension of relief from § 236.377, *Approach locking*; § 236.378, *Time locking*; § 236.379, *Route locking*; § 236.380, *Indication locking*; and § 236.281, *Traffic locking*, to extend the periodic testing schedules from “at least once every 2 years” to “at least once every 4 years” after initial testing has been performed. The relief applies at interlocking control points and other signal locations controlled by solid-state microprocessor-based equipment. UP states that the two-year testing interval places an unnecessary burden on the carrier and provides no real safety benefit as the application program logic does not change once installed.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the

comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Communications received by November 29, 2021 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable. Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), the U.S. Department of Transportation (DOT) solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2015–0072]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on February 10, 2021, Union Pacific Railroad (UP) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 236.566, *Locomotive of each train operation in train stop, train control or cab signal territory; equipped*. The relevant FRA Docket Number is FRA–2015–0072.

Specifically, UP requested an extension of relief to continue operation of non-equipped engines used in switching and transfer service, with or without cars; work trains; wreck trains;

ballast cleaners to and from work; and engines and rail diesel cars moving to and from shops. The subject tracks are areas of the Geneva, Kenosha, and Clinton Subdivisions. UP states that it has been operating under the conditions and requirements set forth in FRA's previous decision letter and has experienced no adverse effects on safety. UP also notes that the petition does not contain any requested relief related to the requirements for the use of positive train control on the tracks identified.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. Federal Railroad Administration

[Docket No. FRA-2010-0056]

BNSF Railway's Request for Testing Approval on Its Certified Positive Train Control System

AGENCY: Federal Railroad Administration (FRA), U.S. Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that on August 2, 2021, BNSF Railway (BNSF) submitted its Onboard Movement Authority with the Virtual Block System (OMA VBS) Afton Pilot Test Plan, Version 1.2a, dated August 3, 2021, to FRA via the Secure Information Repository. BNSF asks FRA to approve its Test Plan, which includes changes to operating rules and procedures and dispatch processes, to test its OMA VBS on track that has been equipped with positive train control (PTC).

DATES: FRA will consider comments received by December 13, 2021 before taking final action on the Testing Plan. FRA may consider comments received after that date to the extent practicable and without delaying implementation of valuable or necessary modifications to a PTC system.

ADDRESSES: All comments concerning this proceeding should identify the agency name and Docket Number FRA-2010-0056, and may be submitted on <https://www.regulations.gov>. Follow the online instructions for submitting comments. For convenience, all active PTC dockets are hyperlinked on FRA's website at <https://railroads.dot.gov/train-control/ptc/ptc-annual-and-quarterly-reports>. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information.

FOR FURTHER INFORMATION CONTACT: Gabe Neal, Staff Director, Signal, Train Control, and Crossings Division, telephone: 816-516-7168, email: Gabe.Neal@dot.gov.

SUPPLEMENTARY INFORMATION: On April 29, 2021, FRA certified BNSF's Interoperable Electronic Train Management System (I-ETMS) PTC system per Title 49 Code of Federal Regulations (CFR) Section 236.1015. Pursuant to 49 CFR 236.1035, BNSF must request FRA-approval of any regression testing of a certified PTC system that is conducted on the general rail system. BNSF's Test Plan describes the level of testing of its OMA VBS

required to confirm that software changes comply with the documented requirements outlined in the I-ETMS Onboard Segment Requirements Specifications.

BNSF's Test Plan and accompanying request for approval are available for review online at www.regulations.gov (Docket Number FRA-2010-0056). Interested parties are invited to comment on the Test Plan by submitting written comments or data. During its review of the Test Plan, FRA will consider any comments or data submitted. 49 CFR 236.1011(e). However, FRA may elect not to respond to any particular comment and, under 49 CFR 236.1009(d)(3), FRA maintains the authority to approve or disapprove the Test Plan at its sole discretion.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the commenter provides, to <https://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See <https://www.regulations.gov/privacy-notice> for the privacy notice of [regulations.gov](http://www.regulations.gov). To facilitate comment tracking, we encourage commenters to provide their name, or the name of their organization; however, submission of names is completely optional. If you wish to provide comments containing proprietary or confidential information, please contact FRA for alternate submission instructions.
