

products and/or services, primary market objectives, and goals for participation. If the DOC receives an incomplete application, the DOC may reject the application, request additional information, or take the lack of information into account in its evaluation.

Each applicant also must certify that the products or services it seeks to export through the mission are either produced in the United States, or, if not, marketed under the name of a U.S. firm and have demonstrable U.S. content of the value of the finished product or service. In the case of a trade association or trade organization, the applicant must certify that, for each company to be represented by the trade association or trade organization, the products and services the represented company seeks to export are either produced in the United States, or, if not, marketed under the name of a U.S. firm and have demonstrable U.S. content.

Selection Criteria

Preference will be given to applicants who plan to participate in both the Vietnam and China mission stops. Selection will be based on the following criteria:

- Suitability of the company's (or, in the case of a trade association, represented companies') products or services to each of the markets the company or trade association has expressed an interest in visiting as part of this trade mission.
- The company's (or, in the case of a trade association, represented companies') potential for business in the region and in each of the markets the company or trade association has expressed an interest in visiting as part of this trade mission, including likelihood of exports resulting from the mission.
- Consistency of the applicant company's (or, in the case of a trade association, represented companies') goals and objectives with the stated mission scope.

Diversity of company size, sector or subsector, and location also may be considered in the review process.

Referrals from political organizations and any documents containing references to partisan political activities (including political contributions) will be removed from an applicant's submission and will not be considered.

Timeline for Recruitment and Application

Mission recruitment will be conducted in an open and public manner, including publication in the **Federal Register**, posting on the DOC

trade mission calendar (<http://export.gov/trademissions>) and other Internet Web sites (including the Civil Nuclear Exporters Portal at www.export.gov/civilnuclear), press releases to general and trade media, direct mail, notices by industry trade associations and other multiplier groups, and publicity at industry meetings, symposia, conferences, and trade shows. Recruitment will begin immediately and conclude no later than April 15, 2013. The DOC will review applications and make selection decisions on a rolling basis by April 20, 2013. Applications received after April 15, 2013 will be considered only if space and scheduling permits.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Jason Landrum, (301) 713-2989 or Jason.Landrum@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

Under the authority of the Marine Debris Research, Prevention, and Reduction Act (Marine Debris Act of 2012, 33 U.S.C. 1951 et seq., as amended by Title VI of Public Law 112-213), NOAA's Marine Debris Division (MDD) is conducting a pilot project designed to assess the economic benefits to beach visitors of marine debris removal. The project will use a revealed preference valuation approach (a random utility travel cost model) to assess benefits associated with marine debris removal at selected beaches in Southern California. The MDD intends to conduct a mail survey of Orange County, California households in order to gather beach trip data required to estimate the model. The pilot project will provide information for use in assessing and prioritizing future efforts to reduce or remove marine debris. The project will also lay the groundwork for additional research related to economic benefits, providing information about the types of marine debris that beach visitors are concerned about and about potential economic modeling challenges.

II. Method of Collection

Respondents will provide information on paper forms, which will be transmitted by mail.

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission (new information collection).

Affected Public: Individuals or households.

Estimated Number of Respondents: Primary survey, 1,200 respondents; non-respondent follow-up survey, 120 respondents.
