Agricultural Marketing Service

[Doc No. AMS-FGIS-20-0065]

United States Standards for Beans

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Reopening of comment period.

SUMMARY: Notice is hereby given that the comment period for a notice for comment published in the **Federal Register** on September 29, 2020 is reopened. The publication invited comments on the revision to the method of interpretation for determining "sample grade criteria," as it pertains to the class "Blackeye beans," in the U.S. Standards for Beans under the United States Agricultural Marketing Act (AMA).

DATES: The comment period for the proposed rule published on September 29, 2020 at 85 FR 60957 is reopened. Comments are due by January 11, 2021.

ADDRESSES: We invite you to submit written comments via the internet at <http://www.regulations.gov>. All comments should refer to the date and page number of this issue of the **Federal Register**. All comments submitted in response to the notice, including the identity of individuals or entities submitting comments, will be made available to the public on the internet via <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Loren Almond, USDA AMS; Telephone: (816) 891-0422; Email: Loren.L.Almond@usda.gov.

SUPPLEMENTARY INFORMATION: On September 29, 2020, AMS published a notice seeking comment on a proposal to amend the Bean Inspection Handbook. The proposal would revise the "sample grade criteria," as it pertains to the class "Blackeye beans." The proposed revision would remove clean-cut weevil-bored beans as a

sample grade factor and change the sample grade tolerances for insect webbing or filth to a percent of 0.10 or more. The original 30-day comment period provided in the proposed rule closed on October 29, 2020. A stakeholder submitted a comment requesting an extension of the comment period. The Agricultural Marketing Service is reopening the public comment period for an additional 30 days to ensure that interested persons have sufficient time to review and comment on the notice for comment. The comment period is reopened for 30 days from the date of publication of this notice.

Submission for OMB Review; Comment Request

November 23, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of

appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 28, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: National Veterinary Service Laboratories; Bovine Spongiform Encephalopathy Surveillance Program.

OMB Control Number: 0579-0409.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 (7 U.S.C. 8301–8317) is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Secretary may also prohibit or restrict import or export of any animal or related material if necessary, to prevent the spread of any livestock or poultry pest or disease. APHIS' National Veterinary Services Laboratories (NVSL) safeguard U.S. animal health and contribute to public health by ensuring that timely and accurate laboratory support is provided by their nationwide animal health diagnostic system. USDA complies with the standard set by the World Organization for Animal Health for bovine spongiform encephalopathy surveillance.

Need and Use of the Information: APHIS will collect information using forms VS 17-146 and VS 17-146a, BSE Surveillance Submission Form/Continuation Sheet and VS 17-131, BSE Surveillance Data Collection Form. APHIS will use the information collected to safeguard the U.S. animal health population against BSE. Without the information APHIS would be unable to monitor and prevent the incursion of BSE into the United States.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 1,099.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 2,565.

Ruth Brown,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Importation of Poultry Meat and Other Poultry Products From Sinaloa and Sonora, Mexico; Poultry and Pork Transiting the United States.

OMB Control Number: 0579-0144.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Animal Health Protection Act (7 U.S.C. 8301 *et seq.*) is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Secretary may also prohibit or restrict the import or export of any animal or related material if necessary to prevent the spread of any livestock or poultry pest or disease.

Disease prevention is the most effective method for maintaining a healthy animal population and for enhancing the U.S. Department of Agriculture's Animal and Plant Health Inspection Services' (APHIS') ability to allow U.S. animal producers to compete in the world market of animal and animal product trade. APHIS is the agency charged with carrying out disease prevention by regulating the importation of animals and animal products into the United States. The regulations under which APHIS conducts these disease prevention activities are contained in 9 CFR parts 91 through 99. These regulations govern the importation of animals and animal products.

The regulations in § 94.6 provide the requirements for, among other things, the importation of poultry carcasses, parts, products, and eggs (other than hatching eggs) from regions where Newcastle disease (ND) is considered to exist. However, § 94.15 allows poultry carcasses, parts, products, and eggs (other than hatching eggs) that are not eligible for entry into the United States
