

27 agenda will occur as previously published in the **Federal Register** on September 7, 2012 (77 FR 55192). On Thursday, September 27, 2012, however, the final day of the meeting, there will be an addition to the items the Council will address. Just prior to adjournment, the Council will discuss the approval of alternatives to be included in the Standardized Bycatch Reporting Methodology (SBRM) Amendment for analysis.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

FOR FURTHER INFORMATION CONTACT:

Joselyd Garcia-Reyes or Carrie Hubbard, (301) 427-8401.

SUPPLEMENTARY INFORMATION: On

February 29, 2012, notice was published in the **Federal Register** (77 FR 12244) that a request for a permit to conduct research on humpback whales (*Megaptera novaeangliae*), fin whales (*Balaenoptera physalus*), blue whales (*B. musculus*), sei whales (*B. borealis*), minke whales (*B. acutorostrata*), sperm whales (*Physeter macrocephalus*), and killer whales (*Orcinus orca*) had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit authorizes harassment of humpback, fin, blue, sei, minke, sperm and killer whales by close vessel approaches; photo-identification and behavioral observations; photogrammetry; collection of exhaled air, feces and sloughed skin; and skin and blubber biopsy sampling import and export of parts. The research would continue a long-term study of North Atlantic humpback whales and improve understanding of the other six target species in the North Atlantic. Research would occur in the waters off Canada, Maine to Florida, and Puerto Rico. Incidental harassment of North Atlantic right whales (*Eubalaena glacialis*) and 14 other non-listed marine mammals is also authorized. The permit expires August 31, 2017.

An environmental assessment (EA) was prepared analyzing the effects of the permitted activities on the human environment in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). Based on the analyses in the EA, NMFS determined that issuance of the permit

would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on August 24, 2012.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: September 7, 2012.

P. Michael Payne,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
