

FINRA arbitrators. FINRA also considered the Report's recommendations to provide greater transparency and consistency in the arbitrator list selection process, some of which require amendments to the Codes. In evaluating proposals, FINRA considered numerous factors including efficiency, cost, fairness and transparency, and certain tradeoffs among these factors. Codifying current practice may achieve greater efficiency and fairness by reducing uncertainty among forum users. It would also have the least impact on costs. Those amendments that do not codify current practice and are new requirements for forum users may result in the more efficient administration of cases in the DRS arbitration forum, and would not impose an undue burden. Thus, the proposed amendments strike an appropriate balance between further enhancing the DRS arbitration forum while limiting any additional costs of complying with the proposed amendments.
