

Final Determination

In the *Preliminary Determination*, the Department found, using partial adverse facts available, that innersprings units completed and assembled in Malaysia by Reztec using components from PRC and exported from Malaysia to the United States are circumventing the *PRC Innerspring Units Order*⁶, pursuant to section 781(b) of the Act. Moreover, because Reztec cannot distinguish between those innerspring units it is exporting to the United States which contain PRC-origin components and those that do not, the Department preliminarily determined that it is appropriate to instruct U.S. Customs and Border Protection (“CBP”) to suspend liquidation of all entries of innerspring units from Malaysia produced by Reztec as subject to the *PRC Innerspring Units Order*. Our final determination remains unchanged from our *Preliminary Determination*. Therefore, the Department determines that it is appropriate to include this merchandise within the scope of the *PRC Innerspring Units Order* and to continue to instruct CBP to suspend all entries of innerspring units from Malaysia produced by Reztec.

Continuation of Suspension of Liquidation

In accordance with section 781(b) of the Act and 19 CFR 351.225(1)(3), the Department will continue to direct CBP to suspend liquidation and to require a cash deposit of estimated duties at the rate applicable to the exporter on all unliquidated entries of innerspring units from Malaysia produced by Reztec that were entered, or withdrawn from warehouse, for consumption on or after May 23, 2012, the date of initiation of the anticircumvention inquiry.⁷
