3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide(s) discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

Under section 5 of FIFRA, 7 U.S.C. 136c, EPA can allow manufacturers to field test pesticides under development. Manufacturers are required to obtain an EUP before testing new pesticides or new uses of pesticides if they conduct experimental field tests on 10 acres or more of land or one acre or more of water.

Pursuant to 40 CFR 172.11(a), the Agency has determined that the following EUP application may be of regional and national significance, and therefore is seeking public comment on the EUP application:

Submitter: Monsanto Company, (524–EUP–1).

Pesticide Chemical: *Bacillus thuringiensis* Cry1Ac protein and the genetic material necessary for its production (vector PV-GMIR9) in MON 87701 soybean.

Summary of Request: Monsanto Company has requested an amendment and extension of permit 524–EUP–1, which was first granted by EPA on September 13, 2007 and extended on April 11, 2008. Under the existing EUP, plantings are permitted through July 31, 2009. Monsanto is now proposing to extend the experimental program until December 31, 2010 and to amend it by conducting testing with up to 0.466 pounds of Cry1Ac protein and the genetic material necessary for its production in MON 87701 soybean on 1,362 acres (282.86 acres of non-PIP and border rows are also proposed for a total of 1,644.86 acres). Two trial protocols will be conducted, including:

- Breeding and observation.
- Regulatory trials.

States and Commonwealth involved in the trials include: Arkansas, Illinois, Indiana, Kentucky, Maryland, Missouri, North Carolina, Puerto Rico, South Carolina, and Virginia.

A copy of the application and any information submitted is available for public review in the docket established for this EUP application as described under **ADDRESSES**.

Following the review of the application and any comments and data received in response to this solicitation, EPA will decide whether to issue or deny the EUP request, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.
