

substantive letters were received from agencies, organizations, businesses, and individuals, and a total of 4,958 form letters (mainly email) were received from non-governmental organizations.

In the summer of 2006, additional scoping was conducted to provide opportunity for public comment on substantive SNWA Project changes: (1) Providing additional pipeline capacity for use by Lincoln County; and (2) Removal of the Tikaboo Lateral in Tikaboo Valley North. A total of 256 substantive letters and no form letters were received during the second scoping period.

During both scoping periods, a total of 1,210 substantive letters were received. Of this total, 597 were received from Nevada, 459 from Utah, and 154 from other states or countries. Key issues identified by individuals, groups, and governmental entities include water supply and use, competing or conflicting land uses, and cumulative impacts and connected actions.

The BLM has prepared the current draft version of the PA in consultation with the Nevada SHPO, ACHP and SNWA. In 2007, the BLM initiated government-to-government consultation with the interested tribes in the project area. In 2011, the BLM convened tribal information sessions in Ely and Las Vegas, Nevada, to discuss the Draft PA and to receive comments and suggestions on the Draft PA and other aspects of the project from interested Indian tribes. In March 2011, the BLM also coordinated with the nine other consulting parties that requested to participate in the Section 106 process.

Please note that public comments will be available for public review and disclosure at the BLM Nevada State Office, 1340 Financial Blvd., Reno, Nevada during regular business hours, 8 a.m. to 4 p.m., Monday through Friday, except holidays.
