

need for the proposed action in terms of the screening criteria applied, including having the least number of impacts to the environment of the action alternatives and the least impacts to base operations and training.

The proposed action will include the construction, operation, and maintenance of utility infrastructure upgrades, expansions, and improvements within MCBCP. These improvements will include a new tertiary wastewater treatment plant and associated facilities serving the northern portion of MCBCP; upgrades to the Base electrical distribution systems and associated facilities, including replacement of existing 4.16kV and 12kV electrical distribution systems; upgrades to the Basewide communication systems; upgrades to the Basewide natural gas systems; and new water and wastewater facilities and road improvements to Range 130. All practical means to avoid or minimize environmental harm from the selected alternative have been adopted.

SUPPLEMENTARY INFORMATION: The complete text of the Record of Decision is available for public viewing on the project Web site at <http://www.cpp.usmc.mil/base/environmental/index.asp> along with copies of the final Environmental Impact Statement (EIS). [FE Docket No. 10-110-LNG]

Sempra LNG Marketing, LLC; Application for Blanket Authorization To Export Liquefied Natural Gas

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application, filed on September 2, 2010, by Sempra LNG Marketing, LLC (Sempra), requesting blanket authorization to export up to a total of 250 billion cubic feet (Bcf) of foreign sourced liquefied natural gas (LNG) for a two-year period commencing on February 1, 2011. The LNG would be exported from the Cameron LNG Terminal (Cameron Terminal) owned by Sempra's affiliate, Cameron LNG, LLC, in Cameron Parish, Louisiana to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy, over a two-year period commencing on the date of the authorization.

The application was filed under section 3 of the Natural Gas Act (NGA), as amended by section 201 of the Energy Policy Act of 1992. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed at the address listed below no later than 4:30 p.m., Eastern time, October 29, 2010.

ADDRESSES:

SUPPLEMENTARY INFORMATION:

Background

Sempra, a Delaware limited liability company, is a wholly-owned subsidiary of Sempra LNG, a Delaware corporation. Sempra LNG, through its other subsidiaries, owns and operates LNG receipt and storage terminals in North America, including the Cameron Terminal in Cameron Parish, Louisiana.

Sempra is engaged in the business of purchasing and marketing supplies of LNG. Sempra is a customer of the Cameron Terminal. On June 22, 2010, FE issued DOE/FE Order No. 2806, which granted Sempra blanket authorization to import LNG from various international sources for a two-year period commencing on September 1, 2010.

Current Application

In the instant application, Sempra is seeking blanket authorization to export LNG from the Cameron Terminal that has been previously imported into the United States from foreign sources. Sempra requests this authority over a two-year period in an amount up to 250 billion cubic feet (Bcf) of natural gas. Sempra requests the blanket authorization provide for export to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy.

Sempra states it uses its blanket DOE/FE LNG import authorization and its capacity in the Cameron Terminal to receive, store and send out to domestic markets cargoes of LNG that have been imported from foreign countries. Sempra states that its requested blanket export authorization would provide Sempra the additional option of exporting volumes of foreign-sourced LNG that are not needed to service the domestic market. Sempra states that it is not proposing, and is not seeking authorization to export any domestically produced natural gas or LNG. This application seeks authorization only to export LNG that has been previously imported into the United States.

Sempra asserts that no facility modifications or additions are required in order for Sempra to export foreign-sourced LNG from the Cameron Terminal. FE takes notice that on September 3, 2010, Cameron LNG, LLC, the owner and operator of the Cameron Terminal, filed a petition under section 3(a) of the NGA with the Federal Energy Regulatory Commission to amend the authorizations issued September 11, 2003, in Docket No. CP02-378-000 for the additional purpose of exporting foreign-sourced LNG.

Public Interest Considerations

Sempra states that the requested blanket export authorization will allow Sempra to purchase LNG at prevailing international prices for import to the United States, even when prices in other markets may be higher, by giving it the ability to store LNG at the Cameron Terminal and later sell it in the most competitive market. Sempra states that
