**ACTION:** Notice of pending U.S. Nuclear Regulatory Commission action to submit

an information collection request to the Office of Management and Budget and solicitation of public comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) invites public comment about our intention to request the Office of Management and Budget's (OMB) approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Title 10 of the *Code of Federal Regulations* (10 CFR) Part 60, "Disposal of High-Level Radioactive Wastes in Geologic Repositories."

2. *Current OMB approval number:* 3150-0127.

3. *How often the collection is required:* The information need only be submitted one time.

4. *Who is required or asked to report:* State or Indian tribes, or their representatives, requesting consultation with the NRC staff regarding review of a potential high-level radioactive waste geologic repository site, or wishing to participate in a license application review for a potential geologic repository (other than a potential geologic repository site at Yucca Mountain, Nevada, which is regulated under 10 CFR part 63).

5. *The number of annual respondents:* 1; however, none are expected in the next 3 years.

6. *The number of hours needed annually to complete the requirement or request:* 1; however, none are expected in the next 3 years.

Representatives of States or Indian tribes must submit a statement of their authority to act in such a representative capacity. The information submitted by the States and Indian tribes is used by the Director of the Office of Nuclear Material Safety and Safeguards as a basis for decisions about the commitment of NRC staff resources to the consultation and participation efforts. The NRC anticipates conducting a public rulemaking to revise portions of 10 CFR part 60 in the near future (i.e.,

within the next 5 years). If, as part of this rulemaking, revisions are made affecting the information collection requirements, the NRC will follow OMB requirements for obtaining approval for any revised information collection requirements. [Note: All of the information collection requirements pertaining to Yucca Mountain were included in 10 CFR part 63, and were approved by OMB under control number 3150-0199. The Yucca Mountain site is regulated under 10 CFR part 63 (66 FR 55792, November 2, 2001).]

Submit, by October 1, 2012, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
