

EVALUATION CRITERIA FOR SUBSTANCES ADDED TO THE NATIONAL LIST—Continued

Question	Yes	No	N/A ¹	Documentation (TAP; petition; regulatory agency; other)
2. Is the substance compatible with a system of sustainable agriculture? [§ 6518m.7]				
3. Is the substance used in production, and does it contain an active synthetic ingredient in the following categories: a. Copper and sulfur compounds; b. Toxins derived from bacteria; c. Pheromones, soaps, horticultural oils, fish emulsions, treated seed, vitamins and minerals? d. Livestock parasiticides and medicines? e. Production aids including netting, tree wraps and seals, insect traps, sticky barriers, row covers, and equipment cleaners?				

¹ If the substance under review is for crops or livestock production, all of the questions from 205.600(b) are N/A—not applicable.

BILLING CODE 3410–02–P

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 956

[Docket No. AMS–FV–07–0157; FV08–956–1 PR]

Sweet Onions Grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon; Increased Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule would increase the assessment rate established for the Walla Walla Sweet Onion Marketing Committee (Committee) for the 2008 and subsequent fiscal periods from \$0.21 to \$0.22 per 50-pound bag or equivalent of Walla Walla sweet onions handled. The Committee locally administers the marketing order which regulates the handling of sweet onions grown in the Walla Walla Valley of Southeast Washington and Northeast Oregon. Assessments upon Walla Walla sweet onion handlers are used by the Committee to fund the reasonable and necessary expenses of the program. The fiscal period begins January 1 and ends December 31. The assessment rate would remain in effect indefinitely unless modified, suspended, or terminated.

DATES: Comments must be received by May 13, 2008.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposal. Comments should be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs,

AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC 20250–0237; Fax: (202) 720–8938, or Internet: <http://www.regulations.gov>. Comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Barry Broadbent or Gary Olson, Northwest Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1220 SW. Third Avenue, Suite 385, Portland, OR 97204; Telephone: (503) 326–2724, Fax: (503) 326–7440, or E-mail:

Barry.Broadbent@usda.gov or GaryD.Olson@usda.gov.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC 20250–0237; Telephone: (202) 720–2491, Fax: (202) 720–8938, or E-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Order No. 956, both as amended (7 CFR part 956), regulating the handling of Walla Walla sweet onions grown in Southeast Washington and Northeast Oregon, hereinafter referred to as the “order.” The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the “Act.”

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice

Reform. Under the marketing order now in effect, Walla Walla sweet onion handlers are subject to assessments. Funds to administer the order are derived from such assessments. It is intended that the assessment rate, as proposed herein, would be applicable to all assessable Walla Walla sweet onions beginning on January 1, 2008, and continue until amended, suspended, or terminated. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing, USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA’s ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule would increase the assessment rate established for the Committee for the 2008 and subsequent fiscal periods from \$0.21 to \$0.22 per 50-pound bag or equivalent of Walla Walla sweet onions handled.

The Walla Walla sweet onion marketing order provides authority for the Committee, with the approval of USDA, to formulate an annual budget of expenses and collect assessments from handlers to administer the program. The members of the Committee are

producers and handlers of Walla Walla sweet onions. They are familiar with the Committee's needs and with the costs for goods and services in their local area and are thus in a position to formulate an appropriate budget and assessment rate. The assessment rate is formulated and discussed in a public meeting. Thus, all directly affected persons have an opportunity to participate and provide input.

For the 1998–1999 and subsequent fiscal periods, the Committee recommended, and USDA approved, an assessment rate of \$0.21 per 50-pound bag or equivalent that would continue in effect indefinitely unless modified, suspended, or terminated by USDA upon the basis of the Committee's recommendation or other information available to USDA.

On December 11, 2007, the Committee met and unanimously recommended 2008 expenditures of \$116,255 and a \$0.01 increase in the assessment rate from \$0.21 to \$0.22 per 50-pound bag or equivalent. In comparison, the budgeted expenditures for the 2007 fiscal period were \$139,210.

The increase in the assessment rate is necessary to offset the recent decline in assessments paid by handlers. Assessment receipts have decreased as the production levels of Walla Walla sweet onions have dropped below historical averages—a result of lower total acreage planted and isolated weather related crop failures. In response to the lower assessment income level, the Committee reduced the total budgeted expenditures from \$139,210 in 2007 to \$116,255 for 2008, but still found it necessary to increase the assessment rate to adequately fund Committee operations.

The major expenditures recommended by the Committee for the 2008 fiscal year include \$62,732 for administration, \$5,000 for travel, \$44,000 for promotion, and \$2,000 for compliance. Budgeted expenses for these items in 2007 was \$62,477, \$5,000, \$63,300, and \$1,000, respectively.

The assessment rate recommended by the Committee was derived at by dividing anticipated expenses by expected shipments of Walla Walla sweet onions from the production area. Walla Walla sweet onion shipments are estimated to be 510,250 50-pound bags or equivalents for the 2008 fiscal period, which should provide \$112,255 in assessment income. The remaining difference between the anticipated Committee expenses and the anticipated revenue from assessments is expected to come from interest income on reserve funds (\$4,000). Funds held in reserve by

the Committee (currently \$144,953) are not expected to exceed the equivalent of two fiscal periods budgeted expenditures, the maximum permitted by the order.

The proposed assessment rate would continue in effect indefinitely unless modified, suspended, or terminated by USDA upon recommendation and information submitted by the Committee or other available information.

Although this assessment rate would be in effect for an indefinite period, the Committee would continue to meet prior to or during each fiscal period to recommend a budget of expenses and consider recommendations for modification of the assessment rate. The dates and times of Committee meetings are available from the Committee or USDA. Committee meetings are open to the public and interested persons may express their views at these meetings. USDA would evaluate Committee recommendations and other available information to determine whether modification of the assessment rate is needed. Further rulemaking would be undertaken as necessary. The Committee's 2008 budget, and those for subsequent fiscal periods, would be reviewed and, as appropriate, approved by USDA.

Initial Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities. Accordingly, AMS has prepared this initial regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are approximately 42 producers of Walla Walla sweet onions in the production area and approximately 20 handlers subject to regulation under the marketing order. Small agricultural producers are defined by the Small Business Administration (13 CFR 121.201) (SBA) as those having annual receipts less than \$750,000, and small agricultural service firms are defined as those whose annual receipts are less than \$6,500,000.

The Committee estimates that in 2007, 494,918 50-pound units of Walla Walla sweet onions were marketed at an

average FOB price of approximately \$19.00 per 50-pound unit. Using that price as a basis, the total industry value at shipping point was approximately \$9,400,000. Average receipts per handler were \$470,000, which is much less than the threshold the SBA uses to define a small service firm. Average receipts for the 42 producers of Walla Walla sweet onions for last year was approximately \$225,000, well within the SBA definition of small agricultural producer. Thus, it can be concluded that most, if not all, handlers and producers of Walla Walla sweet onions may be classified as small entities based on the definition of the SBA.

This rule would increase the assessment rate established for the Committee and collected from handlers for the 2008 and subsequent fiscal periods from \$0.21 to \$0.22 per 50-pound bag or equivalent. The Committee unanimously recommended 2008 expenditures of \$116,255 and an assessment rate of \$0.22 per 50-pound bag or equivalent. The proposed assessment rate of \$0.22 is \$0.01 higher than the rate previously established in the order. The quantity of assessable Walla Walla sweet onions for the 2008 year is estimated at 510,250 50-pound bags or equivalents. Thus, the \$0.22 rate should provide \$112,255 in assessment income and, along with \$4,000 in interest income, would be adequate to meet this year's budgeted expenses of \$116,255.

The major expenditures recommended by the Committee for the 2008 year include \$62,732 for administration, \$5,000 for travel, \$44,000 for promotion, and \$2,000 for compliance. Budgeted expenses for these items in 2007 was \$62,477, \$5,000, \$63,300, and \$1,000, respectively.

The recent decline in assessments collected from handlers has necessitated this assessment rate increase. Assessment income has decreased as the production levels of Walla Walla sweet onions have dropped below historical average levels as a result of lower total acreage planted and isolated weather related crop failures. In response to the lower assessment income level, the Committee reduced its total budgeted expenditures from \$139,210 in 2007 to \$116,255 for 2008, but still found it necessary to increase the assessment rate to adequately fund Committee operations without depleting the Committee's reserve funds.

The Committee reviewed and unanimously recommended 2008 expenditures of \$116,255. Prior to arriving at this budget, the Committee considered information from various

sources, including the Finance and the Promotion sub-committees. Alternative expenditure levels were discussed at length by all parties. The assessment rate of \$0.22 per 50-pound bag or equivalent of assessable Walla Walla sweet onions was then determined by dividing the total recommended budget by the quantity of assessable Walla Walla sweet onions, estimated at 510,250 50-pound units for the 2008 fiscal period. Anticipated assessment revenue is expected to be approximately \$4,000 below the budgeted expenses, which the Committee determined to be acceptable. The Committee expects that interest income for the year will compensate for the \$4,000 deficit, but is prepared to use reserve funds if necessary.

A review of historical information and preliminary information pertaining to the upcoming crop year indicates that the grower price for Walla Walla sweet onions for the 2008 season could range between \$10.00 and \$12.00 per 50-pound bag or equivalent. Therefore, the estimated assessment revenue for the 2008 crop year as a percentage of total grower revenue could range between 1.83 and 2.20 percent.

This action would increase the assessment obligation imposed on handlers. While assessments impose some additional costs on handlers, the costs are minimal and uniform on all handlers. Some of the additional costs may be passed on to producers. However, these costs would be offset by the benefits derived by the operation of the marketing order. In addition, the Committee's meeting was widely publicized throughout the Walla Walla sweet onion industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the December 11, 2007, meeting was a public meeting and all entities, both large and small, were able to express views on this issue. Finally, interested persons are invited to submit comments on this proposed rule, including the regulatory and informational impacts of this action on small businesses.

This proposed rule would impose no additional reporting or recordkeeping requirements on either small or large production area commodity handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

AMS is committed to complying with the E-Government Act, to promote the use of the Internet and other

information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A 60-day comment period is provided to allow interested persons to respond to this proposed rule. All written comments timely received will be considered before a final determination is made on this matter.

List of Subjects in 7 CFR Part 956

Marketing agreements, Onions, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 956 is proposed to be amended as follows:

PART 956—SWEET ONIONS GROWN IN THE WALLA WALLA VALLEY OF SOUTHEAST WASHINGTON AND NORTHEAST OREGON

1. The authority citation for 7 CFR part 956 continues to read as follows:

Authority: 7 U.S.C. 601–674.

2. Section 956.202 is revised to read as follows:

§ 956.202 Assessment rate.

On and after January 1, 2008, an assessment rate of \$0.22 per 50-pound bag or equivalent is established for Walla Walla sweet onions.

Dated: March 10, 2008.

Lloyd C. Day,

Administrator, Agricultural Marketing Service.

Airworthiness Directives; Gulfstream Aerospace LP Model Astra SPX and 1125 Westwind Astra Airplanes and Gulfstream 100 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for the products listed above. This proposed AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

Two of the fasteners used to attach the “scissors” to the horizontal and the vertical stabilizers were found broken during routine maintenance. The highest loads on the “scissors” occur when using high reverse thrust. Therefore, the reverse thrust must be limited to idle in order to keep the loads at a sufficiently low level to preclude any structural problem. * * *

Failure of the attachment fasteners could result in possible in-flight loss of a horizontal or vertical stabilizer and consequent loss of control of the airplane. The proposed AD would require actions that are intended to address the unsafe condition described in the MCAI.

DATES: We must receive comments on this proposed AD by April 14, 2008.

ADDRESSES: You may send comments by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Fax:* (202) 493–2251.
