

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for Navigator will be the rate established in the final results of this administrative review; (2) for merchandise exported by producers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the producer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 7.80 percent, the all-others rate established in the LTFV investigation.⁴ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of double antidumping duties.

⁴ *Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

⁴ See *Certain Uncoated Paper from Portugal: Final Determination of Sales at Less than Fair Value and Final Negative Determination of Critical Circumstances*, 81 FR 3105 (January 20, 2016).

Administrative Protective Order

This notice also serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(5) and 19 CFR 351.213(h)(1).

Dated: July 8, 2022.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

Appendix—List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the *Order*
- IV. Changes Since the *Preliminary Results*
- V. Discussion of the Issue
 - Comment: Whether Commerce Should Grant Navigator a Constructed Export Price (CEP) Offset
- VI. Recommendation

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XC176]

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council's is convening its Scientific and Statistical Committee (SSC) via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Thursday, August 4, 2022, beginning at 9 a.m. Webinar registration information: <https://attendee.gotowebinar.com/register/3655609405233935632>.

Call in information: +1 (631) 992–3221, Access Code: 484–371–473.

ADDRESSES: Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Scientific and Statistical Committee will meet to provide feedback to the Council's Groundfish Plan Development Team (PDT) on possible rebuilding approaches for Gulf of Maine cod and on the basis for the range of alternative rebuilding strategies under development. They will receive an update on the development of Acceptable Biological Catch control rule alternatives under consideration for the Northeast Multispecies Fishery Management Plan. They will review information provided by the Council's Herring PDT and the results of recent Atlantic herring management track stock assessment. Using the Council's ABC control rule and rebuilding plan, recommend the OFLs and the ABCs for Atlantic herring for fishing years 2023, 2024, and 2025. Also on the agenda, their plans to recommend an approach for setting the discard deduction from the annual catch target during specifications setting for the monkfish fishery, considering information provided by the Monkfish Plan Development Team. They will consider other business as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 12, 2022.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Magnuson-Stevens Fishery Conservation and Management Act; Atlantic Coastal Fisheries Cooperative Management Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application modification from Blue Planet Strategies contains all of the required information and warrants further consideration. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act and the Atlantic Coastal Fisheries Cooperative Management Act require publication of this notice to provide interested parties the opportunity to comment on applications for proposed Exempted Fishing Permits.

DATES: Comments must be received on or before August 1, 2022.

ADDRESSES: You may submit written comments by the following method:

- *Email:* NMFS.GAR.EFP@noaa.gov. Include in the subject line "Comments on Blue Planet Strategies EFP." If you cannot submit a comment through this method, please contact Allison Murphy at (978) 281-9122, or email at allison.murphy@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Allison Murphy, Fishery Policy Analyst,

978-281-9122, allison.murphy@noaa.gov.

SUPPLEMENTARY INFORMATION: Blue Planet Strategies was issued an exempted fishing permit (EFP) request on September 7, 2021. The purpose of this project is to test technologies for sub-surface gear marking and gear tracking technologies and prototypes for acoustic release of bottom stowed lift bags or vertical lines for retrieving fishing gear used in the New England groundfish, monkfish, and American lobster and Jonah crab fisheries for the purpose of reducing buoy line interactions with marine mammals. For 2022, this EFP authorized up to 12 participating vessels in 2022 to test ropeless systems in the Gulf of Maine Regulated Mesh Area (gillnet) and Lobster Management Areas 1 and 3 (lobster trap/pot). Blue Planet Strategies was granted exemptions from the following requirements:

1. Gear marking requirements at 50 CFR 697.21(b)(2) to allow for the use of a single buoy marker on a trawl of more than three traps; and
2. Gear marking requirements at § 648.84(b) to allow for the use of a single buoy marker on a gillnet.

One end of both the gillnet and lobster trap gear is required to be marked according to regulations, the other end will test a lift bag system or a stowed rope system, or a spooled rope system. Both gillnet and lobster gear will test either acoustic or modem gear marking technology. A maximum of 140 gillnet deployments were expected in 2022, with a soak time of 96 hours. A maximum of 800 lobster trap deployments were expected in 2022, with a maximum soak time of 4-8 days. Sampling is expected to largely occur from June through October in both 2021 and 2022, though the permit is approved through December 2022.

Blue Planet Strategies submitted a request to revise the EFP on June 21, 2022. Investigators wish to add one additional vessel that operates out of Chatham, Massachusetts and fishes in the Georges Bank Regulated Mesh Area (statistical area 521) and Southern New England Regulated Mesh Area (statistical area 538). Therefore, investigators have requested a geographic expansion of the gillnet effort. No additional gear deployments are expected.

Investigators also request to modify the exemption from gear marking requirements at 50 CFR 697.21(b)(2) to allow for the use of no surface markings within a discrete portion of Area 1. Investigators wish to test the feasibility of using fully on-demand gear within

the shipping channel known as the "Southern Channel" or "Southern Route" in Frenchman Bay (Downeast Maine). This new work is expected to account for approximately 100 of the 800 deployments approved in 2022 (*i.e.*, no new effort will result from this modification). In addition to informing work to reduce the potential for entanglements, this research could help determine whether ropeless gear could allow fishermen to prosecute the fishery in shipping channels that are presently kept clear of fishing gear that uses vertical lines and buoys, minimizing the risk of gear conflict.

If approved, Blue Planet Strategies may request minor modifications and extensions to the EFP throughout the study. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

(Authority: 16 U.S.C. 1801 *et seq.*)

Dated: July 11, 2022.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the South Atlantic and Gulf of Mexico; South Atlantic Fishery Management Council and Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a joint public meeting.

SUMMARY: The South Atlantic Fishery Management Council's (SAFMC) and Gulf of Mexico Fishery Management Council's (GMFMC) will hold a joint meeting of their Scientific and Statistical Committees (SSC) via webinar.

DATES: The joint SSC meeting will take place Thursday, August 4, 2022, from 9 a.m. to 5 p.m., EDT.

ADDRESSES: The meeting will be held via webinar.
