

As part of reopening the public comment period, HUD will be making available a scoring template that will enable PHAs and other interested members of the public to enter information to generate estimated scores under the proposed rule. The purpose of the scoring template is to facilitate understanding of the PHAS scoring system that HUD proposed in its August 21, 2008, proposed rule. The scoring template reflects how scoring would work if the proposed system were adopted at the final rule stage. The template allows the public to enter information to generate estimated scores under the proposed rule. The scoring template is posted on the Office of Public and Indian Housing's Web site at <http://www.hud.gov/offices/ph/am/index.cfm>.

This tool was not available during the initial public comment period. Given the public interest in this rule, and the availability of this new information, HUD is reopening the public comment period. HUD hopes that this template helps clarify the proposed scoring system, and welcomes additional comments on the scoring system during the reopened public comment period. Accordingly, this notice reopens the public comment period for the PHAS proposed rule, published on August 21, 2008, for an additional 45-day period.

Dated: November 17, 2008.

#### Approval and Promulgation of Air Quality Implementation Plans; Tennessee; Approval of Revisions to the Knox County Portion of the Tennessee State Implementation Plan—"Permit by Rule" Provision

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve a revision to the State Implementation Plan (SIP) submitted by the State of Tennessee on October 12, 2007. The revision pertains to the Knox County portion of the Tennessee SIP and includes changes to Knox County Air Quality Management Regulation (Knox County Regulation) Section 25.10—Permit by Rule. Specifically, Section 25.10 was changed so that it clearly states that turbines and other internal combustion engines are excluded from the "Permit by Rule" provision. This revision is considered by the Tennessee Department of Environment and Conservation (TDEC), to be as or more stringent than the State of Tennessee's SIP requirements. This action is being taken pursuant to section 110 of the Clean Air Act (CAA).

In the Final Rules section of this **Federal Register**, EPA is approving the SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule

based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
