

nonresidential buildings built before 1936. An owner of a non-historic building in a historic district must also use the application to obtain a certification from the Secretary of the Interior that his or her building does not contribute to the significance of the historic district before claiming this lesser tax credit for rehabilitation. The 10% credit was repealed as part of the 2017 tax reform legislation but may remain in effect under certain transition rules.

SHPOs are the first point of contact for property owners wishing to use the rehabilitation tax credits. They help applicants determine if a historic building is eligible for Federal or State historic preservation tax incentives, provide guidance on an application before or after the project begins, and provide advice on appropriate preservation work. SHPOs use Forms 10–168d and 10–168e to make recommendations to NPS.

In accordance with 36 CFR 67, we also collect information for:
