

limitations, standards, prohibitions and best management practice plans.

Owners and/or operators of hydroelectric generating facilities with these discharges, including those facilities currently authorized to discharge under individual NPDES permits, are eligible to apply for coverage. Facilities will receive a written notification from EPA whether permit coverage and authorization to discharge under one of the general permits is approved. These general permits do not cover new sources as defined under 40 CFR 122.2.

**DATES:** These general permits shall be effective on December 7, 2009 and will expire five years from the effective date.

**ADDRESSES:** The required notification information to obtain permit coverage is provided for each general permit. This information shall be submitted to EPA—Region 1, Office of Ecosystem Protection (CMP), 1 Congress Street, Suite 1100, Boston, Massachusetts 02114–2023 and to the appropriate State Agency.

**FOR FURTHER INFORMATION CONTACT:** Additional information concerning the final permits may be obtained between the hours of 8 a.m. and 4 p.m. Monday through Friday excluding holidays from: William Wandle, Office of Ecosystem Protection, Environmental Protection Agency, 1 Congress Street, Suite 1100 (CMP), Boston, MA 02114–2023, telephone: 617–918–1605, e-mail: [wandle.bill@epa.gov](mailto:wandle.bill@epa.gov).

**SUPPLEMENTARY INFORMATION:** This general permit and the response to comments may be viewed over the Internet via the EPA-Region 1 Web site for dischargers in Massachusetts at <http://www.epa.gov/ne/npdes/mass.html> and for dischargers in New Hampshire at <http://www.epa.gov/ne/npdes/newhampshire.html>. The general permits include the requirements for the notice of intent information and best management practices plan, and the standard permit conditions. To obtain a paper copy of the documents, please contact William Wandle using the contact information provided above. A reasonable fee may be charged for copying requests.

Dated: November 10, 2009.

### Notice of Final Residual Designation of Certain Storm Water Discharges in the State of Maine Under the National Pollutant Discharge Elimination System of the Clean Water Act

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Regional Administrator of the Environmental Protection Agency's (EPA) New England Regional Office is providing notice of a final residual designation determination made on October 28, 2009 in accordance with Section 402(p) of the Clean Water Act, and implementing regulations in 40 CFR 122.26(a)(9)(i)(D). The final determination requires that storm water discharges from impervious areas equal to or greater than one acre in the Long Creek watershed (South Portland, Westbrook, Scarborough, and Portland, Maine) be authorized by a permit under the federal Clean Water Act because those discharges contribute to a violation of water quality standards in Long Creek. Copies of the final residual designation and other materials are available for inspection online as described elsewhere in this notice document.

**FOR FURTHER INFORMATION CONTACT:** Jennie Bridge, EPA New England Region, One Congress Street, Suite 1100, Mail Code CWQ, (617) 918–1685, [bridge.jennie@epa.gov](mailto:bridge.jennie@epa.gov).

**SUPPLEMENTARY INFORMATION:** A copy of the final determination, the Record of Decision for the preliminary residual determination, and EPA's response to public comments may be viewed at the following Web sites: <http://www.regulations.gov>: Type in the key words “residual designation” and then search for docket ID No. EPA–R01–OW–2008–0910; <http://www.epa.gov/region01/npdes/stormwater/assets/pdfs/LongCreekRD.pdf>; <http://www.epa.gov/region01/npdes/stormwater/index.html> (scroll to “Residual Designations”/“Long Creek”).

Dated: November 23, 2009.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA–R05–OAR–2008–0682; FRL–9087–6]

### Adequacy Status of the Washington County, OH and the Ohio Portion of the Huntington/Ashland KY/WV/OH Area Submitted Annual Fine Particulate Matter Attainment Demonstration for Transportation Conformity Purposes

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of adequacy.

**SUMMARY:** In this notice, EPA is notifying the public that we have made insignificance findings through the transportation conformity adequacy process for directly emitted fine particulate matter (PM<sub>2.5</sub>) and oxides of nitrogen (NO<sub>x</sub>) in Washington County, Ohio (part of the Parkersburg/Marietta annual PM<sub>2.5</sub> nonattainment area) and the Ohio portion of the Huntington/Ashland annual PM<sub>2.5</sub> nonattainment area. Ohio submitted the attainment demonstration State Implementation Plan (SIP) for annual PM<sub>2.5</sub> initially on July 16, 2008, and subsequently submitted the public hearing results on December 5, 2008. As a result of our finding, Washington County, Ohio and the Ohio portion of the Huntington/Ashland area are no longer required to perform a regional emissions analysis for either directly emitted PM<sub>2.5</sub> or NO<sub>x</sub> as part of future PM<sub>2.5</sub> conformity determinations for the 1997 annual PM<sub>2.5</sub> air quality standard.

**DATES:** This finding is effective December 22, 2009.

**FOR FURTHER INFORMATION CONTACT:** Patricia Morris, Environmental Scientist, Criteria Pollutant Section (AR–18J), Air Programs Branch, Air and Radiation Division, United States Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353–8656, [morris.patricia@epa.gov](mailto:morris.patricia@epa.gov).

**SUPPLEMENTARY INFORMATION:** Throughout this document, whenever “we”, “us” or “our” is used, we mean EPA.

### Background

Today's notice is simply an announcement of a finding that we have already made. On October 23, 2009, EPA Region 5 sent a letter to the Ohio Environmental Protection Agency stating that we have made insignificance findings for PM<sub>2.5</sub> and NO<sub>x</sub> as the state requested in its PM<sub>2.5</sub> attainment demonstration submittal, a finding we made through the transportation conformity adequacy process.
