

[This is required beginning with FY 2023 reporting].

3. Number of Assisted Applicants by Race. Grant recipients will report on assisted applicants by race according to standard census categories [This is required beginning with FY 2023 reporting].

4. Number of Assisted Applicants by Gender. Grant recipients will report on assisted applicants by gender [This is required beginning with FY 2023 reporting].

5. Number of Assisted Household Members by Ethnicity. Grant recipients will report on assisted household members by ethnicity according to standard census categories [This is optional for FY 2023 reporting and required beginning with FY 2024 reporting].

6. Number of Assisted Household Members by Race. Grant recipients will report on assisted household members by race according to standard census categories [This is optional for FY 2023

reporting and required beginning with FY 2024 reporting].

7. Number of Assisted Household Members by Gender. Grant recipients will report on assisted household members by gender [This is optional for FY 2023 reporting and required beginning with FY 2024 reporting].

The proposed additions will provide OCS with critical data that is needed to evaluate if LIHEAP is equitably serving communities across the country. The collection of demographic data including owner/renter status, race, ethnicity, and gender will allow OCS to conduct analysis disaggregated by these variables to assess whether the LIHEAP resources are equity distributed. Therefore, this data collection aligns with the goals of Executive Order 13985 (Advancing Racial Equity and Support for Underserved Communities Through the Federal Government). Additionally, collecting demographic data in LIHEAP will bring the program into alignment

with other programs across OCS including the Community Services Block Grant, which currently collects demographic data on beneficiaries, and Low Income Household Water Assistance Program (LIHWAP), which will collect demographic data on beneficiaries in FY 2023.

To minimize reporting burden to the greatest extent possible, and in recognition of the significant overlap in LIHEAP and LIHWAP grant recipients, OCS is proposing to use the same demographic measures included in the LIHWAP Annual Report in the LIHEAP Household Report. OCS has also removed the reporting requirements for applicant households by assistance type and poverty interval on the Household Report Long Form to offset some of the additional reporting burden entailed by the demographic data collection.

Respondents: State governments, tribal governments, U.S. territories, and the District of Columbia

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Total number of responses per respondent	Average burden hours per response	Annual burden hours
Assisted Household Report-Long Form	56	1	67	3,752
Assisted Household Report-Short Form	151	1	10	1,510
Household Application	6,160,000	1	1	6,160,000

Estimated Total Annual Burden Hours: 6,165,262.

Please note that the above estimate accounts for the burden this data collection entails on LIHEAP applicants. In previous years, OCS has not included an estimate of the burden on households. While OCS does not mandate that LIHEAP grant recipients use a standard household application, we know that grant recipients collect many of the required Household Report data elements through their household application. The annual burden for the household application indicated above accounts for the time it will take LIHEAP applicants to provide the data required by the current Household Report as well as the proposed demographic data elements. To calculate this burden, we used an estimate for the annual number of LIHEAP household applicants multiplied by an average of an hour to provide the data required by the Household Report.

[Docket No. FDA–2022–N–2841]

Science Board to the Food and Drug Administration Advisory Committee; Notice of Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA or Agency) announces a forthcoming public advisory committee meeting of the Science Board to the Food and Drug Administration (Science Board). The Science Board provides advice to the Commissioner of Food and Drugs and other appropriate officials on specific, complex scientific and technical issues important to FDA and its mission, including emerging issues within the scientific community. Additionally, the Science Board provides advice to the Agency on keeping pace with technical and scientific developments, including in regulatory science, input into the Agency’s research agenda, and on upgrading its scientific and research facilities and training opportunities. It will also provide, where requested, expert review of Agency-sponsored intramural and extramural scientific research programs. The meeting will be open to the public.
