

project and to provide a final project report summarizing outcomes and major findings of each project. EPA's policy on performance measurement in assistance agreements is an implementation outcome under the Government Performance and Results Act (GPRA) section 1115(a)(4) and section 1116(c)). EPA's innovation piloting efforts are multi-media in nature and include programs authorized under the full range of authorizing legislation (e.g., the Clean Air Act, Section 103(b)(3) (42 U.S.C. 7403(b)(3)); the Clean Water Act, Section 104(b)(3) (33 U.S.C. 1254(b)(3)); the Solid Waste Disposal Act, Section 8001 (42 U.S.C. 6981); the Toxics Substances Control Act, Section 10 (15 U.S.C. 2609); the Federal Insecticide, Fungicide, and Rodenticide Act, Section 20 (7 U.S.C. 136r); and the Safe Drinking Water Act, Sections 1442(a) and (c) (42 U.S.C. 1(a) and (c)).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 44 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential annual respondents: 1270.

Frequency of response: 35 quarterly; 1234 annually.

Estimated total average number of responses for each respondent: 1.2.

Estimated total annual burden hours: 7748 hours.

Estimated total annual costs: \$331,460. This includes an estimated burden cost of \$331,460 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

Are There Changes in the Estimates From the Last Approval?

There is an increase of 2292 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects the need to collect information on project performance and outcomes in the form of quarterly reporting and final project reporting for current and future projects that is not addressed in other ICRs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
