

The countries which are scheduled to be discussed are Antigua and Barbuda, Cayman Islands, Dominica, Granada, Hungary, Philippines, and Sint Maarten. The meeting agenda, as well as the staff analyses pertaining to the meeting will be posted on the Department of Education's Web site prior to the meeting at <http://www2.ed.gov/about/bdscomm/list/ncfmea.html>.

Reasonable Accommodations: The meeting site is accessible to individuals with disabilities. If you will need an auxiliary aid or service to participate in the meeting (e.g., interpreting service, assistive listening device, or materials in an alternate format), notify the contact person listed in this notice by October 18, 2013, although we will attempt to meet a request received after that date.

FOR FURTHER INFORMATION CONTACT: Carol Griffiths, Executive Director for the NCFMEA, U.S. Department of Education, 1990 K Street NW., Room 8073, Washington, DC 20006-8129, telephone: 202 219-7035; fax: 202 502-7874, or email: Carol.Griffiths@ed.gov.

Electronic Access to this Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF, you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Delegation of Authority: The Secretary of Education has delegated authority to Lynn B. Mahaffie, Acting Deputy Assistant Secretary for Policy, Planning, and Innovation, to perform the functions and duties of the Assistant Secretary for Postsecondary Education.

Lynn B. Mahaffie,

Acting Deputy Assistant Secretary for Policy, Planning, and Innovation, delegated the authority to perform the functions and duties of the Assistant Secretary for Postsecondary Education.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[OE Docket No. PP-387]

Application for Presidential Permit; Soule River Hydroelectric Project

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: Soule Hydro, LLC (Soule Hydro) has applied for a Presidential permit to construct, operate, maintain, and connect an electric transmission line across the United States border with Canada.

DATES: Comments, protests, or motions to intervene must be submitted on or before August 29, 2013.

ADDRESSES: Comments, protests, or motions to intervene should be addressed as follows: Brian Mills, Office of Electricity Delivery and Energy Reliability (OE-20), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Brian Mills (Program Office) at 202-586-8267 or via electronic mail at Brian.Mills@hq.doe.gov, or Katherine L. Konieczny (Attorney-Adviser) at 202-586-0503 or via electronic mail at Katherine.Konieczny@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On March 18, 2013, Soule Hydro filed an application with the Office of Electricity Delivery and Energy Reliability of the Department of Energy (DOE) for a Presidential Permit. Soule Hydro is a limited liability corporation, organized and existing in the State of Delaware. Alaska Power & Telephone Company (AP&T) is the parent company and sole shareholder for Soule Hydro.

Soule Hydro proposes to construct and operate a high-voltage alternating current (HVAC) hydroelectric transmission line that is to originate on the Soule River, on Portland Canal in Southeast Alaska, and continue to the BC Hydro Stewart Substation on the north side of Stewart, British Columbia. It would occupy federal land administered by the Ketchikan-Misty Fjords Ranger District of the U.S. Forest Service (Forest Service). The proposed Soule River Hydroelectric Project (the "Project") would be capable of

transmitting up to 77.4 megawatts (MW) of power.

The Alaska portion of the Project would be an 8-mile long, 138 kilovolt (kV) HVAC 3-phase submarine cable that would be laid on the floor of Portland Canal off the community of Hyder, Alaska, waterfront before it would cross the international boundary and extend approximately 2 miles to land at Stewart, B.C. Arrow Dock.

The transmission line would eventually transition to overhead and terminate at the BC Hydro Stewart Substation approximately 2.5 miles from the cable landing.

Soule Hydro represents that the Project's precise final route would be subject to a number of factors, including resource issues, permitting, land acquisition, and stakeholder agreement. The approximately 8-mile-long portion of the Project located within the United States as well as the approximately 4.5 miles of transmission infrastructure in Canada would be owned and operated by Soule Hydro.

Since the restructuring of the electric industry began, resulting in the introduction of different types of competitive entities into the marketplace, DOE has consistently expressed its policy that cross-border trade in electric energy should be subject to the same principles of comparable open access and non-discrimination that apply to transmission in interstate commerce. DOE has stated that policy in export authorizations granted to entities requesting authority to export over international transmission facilities. Specifically, DOE expects transmitting utilities owning border facilities to provide access across the border in accordance with the principles of comparable open access and non-discrimination contained in the Federal Power Act and articulated in Federal Energy Regulatory Commission (FERC) Order No. 888 (Promoting Wholesale Competition Through Open Access Non-Discriminatory Transmission Services by Public Utilities; FERC Stats. & Regs. ¶31,036 (1996)), as amended. In furtherance of this policy, DOE invites comments on whether it would be appropriate to condition any Presidential permit issued in this proceeding on compliance with these open access principles.

Procedural Matters: Any person may comment on or protest this application by filing such comment or protest at the address provided above in accordance with Rule 211 of FERC's Rules of Practice and Procedure (18 CFR 385.211). Any person seeking to become a party to this proceeding must file a

motion to intervene at the address provided above in accordance with Rule 214 of FERC's Rules of Practice and Procedure (18 CFR 385.214). Fifteen copies of each comment, protest, or motion to intervene should be filed with DOE on or before the date listed above.

Additional copies of such comment, protest, or motion to intervene should also be filed directly with: Mr. Robert S. Grimm, CEO/President, Soule Hydro, LLC, c/o Alaska Power & Telephone Company, 193 Otto Street, P.O. Box 3222, Port Townsend, WA 98368.

Before a Presidential permit may be issued or amended, DOE must determine that the proposed action is in the public interest. In making that determination, DOE considers the environmental impacts of the proposed project pursuant to the National Environmental Policy Act of 1969, determines the project's impact on electric reliability by ascertaining whether the proposed project would adversely affect the operation of the U.S. electric power supply system under normal and contingency conditions, and considers any other factors that may also be relevant to the public interest. DOE must obtain the concurrences of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://www.oe.energy.gov/permits_pending.htm, or by emailing Angela Troy at angela.troy@hq.doe.gov.

Issued in Washington, DC, on July 24, 2013.

Brian Mills,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC13-14-000]

Commission Information Collection Activities (FERC Form 80); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Comment request.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507(a)(1)(D), the Federal Energy

Regulatory Commission (Commission or FERC) is submitting the information collection, FERC Form 80, Licensed Hydropower Development Recreation Report, to the Office of Management and Budget (OMB) for review of the information collection requirements. Any interested person may file comments directly with OMB and should address a copy of those comments to the Commission as explained below. The Commission issued a Notice in the **Federal Register** (78 FR 28820, 5/16/2013) requesting public comments. FERC received no comments on the FERC Form 80 and is making this notation in its submittal to OMB.

DATES: Comments on the collection of information are due August 29, 2013.

ADDRESSES: Comments filed with OMB, identified by the OMB Control No. 1902-0106, should be sent via email to the Office of Information and Regulatory Affairs: oira_submission@omb.gov. Attention: Federal Energy Regulatory Commission Desk Officer. The Desk Officer may also be reached via telephone at 202-395-4718.

A copy of the comments should also be sent to the Federal Energy Regulatory Commission, identified by the Docket No. IC13-14-000, by either of the following methods:

- *eFiling at Commission's Web site:*
<http://www.ferc.gov/docs-filing/efiling.asp>
- *Mail/Hand Delivery/Courier:*
Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: <http://www.ferc.gov/help/submission-guide.asp>. For user assistance contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208-3676 (toll-free), or (202) 502-8659 for TTY.

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/downloading comments and issuances in this docket may do so at <http://www.ferc.gov/docs-filing/docs-filing.asp>.

FOR FURTHER INFORMATION CONTACT:

Ellen Brown may be reached by email at DataClearance@FERC.gov, telephone at (202) 502-8663, and fax at (202) 273-0873.

SUPPLEMENTARY INFORMATION:

Title: FERC Form 80, Licensed Hydropower Development Recreation Report.

OMB Control No.: 1902-0106.

Type of Request: Minor revisions to the FERC Form 80 information

collection requirements with no change to the current reporting burden.

Abstract: FERC uses the information on the FERC Form 80 to implement the statutory provisions of sections 4(a), 10(a), 301(a), 304 and 309 of the Federal Power Act (FPA), 16 U.S.C. 797, 803, 825c & 8254. FERC's authority to collect this information comes from section 10(a) of the FPA which requires the Commission to be responsible for ensuring that hydro projects subject to FERC jurisdiction are consistent with the comprehensive development of the nation's waterway for recreation and other beneficial public uses. In the interest of fulfilling these objectives, FERC expects licensees subject to its jurisdiction to recognize the resources that are affected by their activities and to play a role in protecting such resources.

FERC Form 80 is a report on the use and development of recreational facilities at hydropower projects licensed by the Commission. Applications for licenses, amendments to licenses, and/or changes in land rights frequently involve changes in resources available for recreation. FERC utilizes the FERC Form 80 data when analyzing the adequacy of existing public recreational facilities and when processing and reviewing proposed amendments to help determine the impact of such changes. In addition, the FERC regional office staff uses the FERC Form 80 data when conducting inspections of licensed projects. FERC inspectors use the data in evaluating compliance with various license conditions and in identifying recreational facilities at hydropower projects.

The FERC Form 80 requires data specified by Title 18 of the Code of Federal Regulations (CFR) under Parts 8.11 and 141.14 (and discussed at <http://www.ferc.gov/docs-filing/forms.asp#80>).

FERC collects the FERC Form 80 once every six years. The last collection was due on April 1, 2009, for data compiled during the 2008 calendar year. The next collection of the FERC Form 80 is due on April 1, 2015, with subsequent collections due every sixth year, for data compiled during the previous calendar year.

The Commission made minor revisions throughout the form. Specifically, FERC clarified and simplified instructions, removed redundancy in certain questions, clarified questions and terms, and generally improved the readability of the form.

FERC has attached the revised form to this notice.
