Sec. 14;

Sec. 15;

Sec. 22, excluding that portion of the parcel shown on the Exhibit "A" map accompanying the legal description of the Ivanpah-3 BLM right-of-way lease/grant CACA-49503, dated October 7, 2010, on file at the BLM field office in Needles, CA.;

Sec. 23;

Sec. 24, N $\frac{1}{2}$, SW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$, and W $\frac{1}{2}$ SE $\frac{1}{4}$;

Sec. 25;

Sec. 26;

Sec. 34, SE $\frac{1}{4}$;SE $\frac{1}{4}$;

Sec. 35.

The area described aggregates 6,223.25 acres, more or less, in San Bernardino County.

In order to process the ROW application filed on the lands described above and to maintain the status quo, the BLM originally published a notice in the **Federal Register** on August 4, 2011 (76 FR 47235) to segregate the lands described above for a period of 2 years, which expired on August 4, 2013. The BLM has determined that an additional segregation of the public lands identified above is needed for the orderly administration of public lands while the BLM considers a revised proposal for the project area. The BLM is segregating the lands under the authority contained in 43 CFR 2091.3-1(e) and 43 CFR 2804.25(e), which permits a segregation period of 2 years, subject to valid existing rights, not to exceed a total period of 4 years. This additional 2-year segregation period is consistent with the applicable regulations and will commence on September 24, 2013. As explained below, this additional segregation cannot be extended. The public lands involved in this closure will be segregated from appropriation under the

public land and mining laws, but not the mineral leasing or material sale laws.

The segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the mining laws, if one of the following events occurs: (1) The authorized officer issues a decision granting, granting with modifications, or denying the application for a ROW; (2) The BLM publishes a **Federal Register** notice terminating the segregation; or (3) The BLM takes no further administrative action at the end of the segregation provided for in the **Federal Register** notice initiating the segregation, whichever occurs first. Since the lands identified above have already been segregated for an initial 2-year period in connection with the Desert Stateline, LLC's application, the BLM will not be able to extend this segregation for an additional period after the expiration of this 2-year segregation period.

Upon termination or expiration of the segregation of these lands, all lands subject to this segregation will automatically reopen to appropriation under the public land laws, including the United States mining laws.

Authority: 43 CFR parts 2800 and 2090.

Thomas Pogacnik,

Deputy State Director, Natural Resources.
