

**Information Collections**

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicare Part D Electronic Prescribing Tools (42 CFR 423.128(d)(4)–(5) and 423.160(b)(1)); *Use:* The NCPDP SCRIPT standard is utilized to electronically transmit prescriptions for Part D drugs for Part D eligible individuals, as required at 42 CFR 423.160(b)(1). This standard also includes a series of transactions which enable ePA to take place when the electronically prescribed drug requires PA. The ePA transactions within the NCPDP SCRIPT standard enable the secure exchange of information relevant to ePA between the prescriber’s electronic health record (EHR) and the insurer, specifically providing standardized information fields that are relevant for medication use, mandatory questions, transaction messaging, and standardized ePA data elements exchanging the PA questions and answers between prescribers and payers.

Beneficiaries can access the real-time benefit tools (RTBTs) online or by phone from the plan’s call center. Although a goal of requiring a beneficiary RTBT is to ensure beneficiaries can readily access their formulary and benefit information, we retained a requirement for Part D sponsors to provide the same information by phone for beneficiaries who are less comfortable with computer or mobile access to their plan information.; *Form Number:* CMS–10755 (OMB control number: 0938–1396); *Frequency:* Yearly; *Affected Public:* Private and Businesses or other
