BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Special Nuclear Material of Less Than Critical Mass Licenses

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of availability.

SUMMARY: The NRC is announcing the availability of final NUREG-1556, Volume 17, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Special Nuclear Material of Less Than Critical Mass Licenses," dated November 2000.

The NRC is using Business Process Redesign techniques to redesign its materials licensing process, as described in NUREG-1539, "Methodology and Findings of the NRC's Materials Licensing process Redesign." A critical element of the new process is consolidating and updating numerous guidance documents into a NUREG-series of reports. This final NUREG report is the 17th guidance document developed to support an improved materials licensing process.

This guidance is intended for use by applicants, licensees, and the NRC staff, and will also be available to Agreement States. This document combines and updates the guidance found in Regulatory Guide 10.3 "Guide for the preparation of Applications for Special Nuclear Material Licenses of Less Than Critical mass Quantities." This final report takes a more risk-informed, performance-based approach to licensing quantities of special nuclear material of less than critical mass, and reduces the information (amount and level of detail) needed to support an application to use this material.

A free single copy of final NUREG 1556, Volume 17, may be requested by writing to the US Nuclear Regulatory Commission, ATTN: Mrs. Carrie Brown, Mail Stop TWFN 9-C24, Washington, DC 20555-0001. Alternatively, submit requests through the Internet by addressing electronic mail to cxb@nrc.gov. A copy of this final

NUREG 1556 Volume 17, is available for inspection and/or copying for a fee in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC 20555-0001.

FOR FURTHER INFORMATION CONTACT: Mrs. Carrie Brown, TWFN 9-F-24, Division of Industrial and Medical Nuclear Safety, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-8092.

Electronic Access: Final NUREG-1556, Vol. 17 is available electronically by visiting the NRC's Home Page (<http://www.nrc.gov/nrc/nucmat.html>)

Dated at Rockville, Maryland, this 21st day of December, 2000.

For the Nuclear Regulatory Commission.

Patricia K. Holahan,

Chief, Rulemaking and Guidance Branch, Division of Industrial and Medical Nuclear Safety, NMSS.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Rule 15g-9; SEC File No. 270-325; OMB Control No. 3235-0385]

Proposed Collection; Comment Request

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comment on the collection of information described below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 15g-9, Sales Practice Requirements for Certain Low-Priced Securities

Section 15(c)(2) of the Securities Exchange Act of 1934 (the "Exchange Act") authorizes the Commission to promulgate rules that prescribe means reasonably designed to prevent fraudulent, deceptive, or manipulative practices in connection with over-the-counter ("OTC") securities transactions. Pursuant to this authority, the Commission in 1989 adopted rule 15a-6 (the "Rule"), which was subsequently redesignated as rule 15g-9, 17 CFR 240.15g-9. The Rule requires broker-dealers to produce a written suitability determination for, and to obtain a written customer agreement to, certain recommended transactions in low-priced stocks that are not registered on

a national securities exchange or authorized for trading on NASDAQ, and whose issuers do not meet certain minimum financial standards. The Rule is intended to prevent the indiscriminate use by broker-dealers of fraudulent, high-pressure telephone sales campaigns to sell low-priced securities to unsophisticated customers.

The staff estimates that approximately 270 broker-dealers incur an average burden of 78 hours per year to comply with this rule. Thus, the total annual burden to comply with the Rule is estimated at 21,060 hours (270 × 78).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your comments to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

Dated: January 4, 2001.

Jonathan G. Katz,

Secretary.
