

Proposed Rules

Federal Register

Vol. 86, No. 77

Friday, April 23, 2021

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 945

[Doc. No. AMS–SC–20–0074; SC20–945–1 PR]

Irish Potatoes Grown in Certain Designated Counties in Idaho, and Malheur County, Oregon; Modification of Handling Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule invites comments on a recommendation from the Idaho-Eastern Oregon Potato Committee (Committee) to revise the size requirements for Irish potatoes grown in certain designated counties of Idaho, and Malheur County, Oregon. The Committee recommended this action to improve the handling and marketing of Idaho-Eastern Oregon potatoes and increase returns to producers.

DATES: Comments must be received by June 22, 2021.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposed rule. Comments must be sent to the Docket Clerk, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237; Fax: (202) 720–8938; or internet: <https://www.regulations.gov>. Comments should reference the document number and the date and page number of this issue of the **Federal Register** and will be available for public inspection in the Office of the Docket Clerk during regular business hours or can be viewed at <https://www.regulations.gov>. All comments submitted in response to this proposed rule will be included in the record and will be made available to the public. Please be advised that the identity of the individuals or entities submitting the

comments will be made public on the internet at the address provided above.

FOR FURTHER INFORMATION CONTACT:

Gregory A. Breasher, Marketing Specialist, or Gary D. Olson, Regional Manager, Northwest Marketing Field Office, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA; Telephone: (503) 326–20544, Fax: (503) 326–7440, or email: Gregory.Breasher@usda.gov or GaryD.Olson@usda.gov.

Small businesses may request information on complying with this regulation by contacting Richard Lower, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237; Telephone: (202) 720–2491, Fax: (202) 720–8938, or email: Richard.Lower@ams.usda.gov.

SUPPLEMENTARY INFORMATION: This action, pursuant to 5 U.S.C. 553, proposes an amendment to regulations issued to carry out a marketing order as defined in 7 CFR 900.2(j). This proposed rule is issued under Marketing Agreement and Marketing Order No. 945, both as amended (7 CFR part 945), regulating the handling of Irish potatoes grown in certain designated counties in Idaho, and Malheur County, Oregon. Part 985 (referred to as the “Order”) is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the “Act.” The Committee locally administers the Marketing Order and is comprised of potato producers and handlers operating within the production area.

The Department of Agriculture (USDA) is issuing this proposed rule in conformance with Executive Orders 13563 and 13175. This action falls within a category of regulatory actions that the Office of Management and Budget (OMB) exempted from Executive Order 12866 review.

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. This action is not intended to have retroactive effect.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with

the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing, USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA’s ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

Under the terms of the Order, fresh market shipments of Idaho-Eastern Oregon potatoes are required to be inspected and are subject to minimum grade, size, quality, maturity, pack, and container requirements. This proposed rule invites comments on revising certain provisions of the previously established size requirements for potatoes handled under the Order.

At its meeting on August 6, 2020, the Committee unanimously recommended revising the Order’s size requirements to allow shipment of Size B, U.S. No. 2 or better grade, non-Russet type potatoes. Sections 945.51 and 945.52 of the Order provide authority for the establishment and modification of grade, size, quality, and maturity regulations applicable to the handling of potatoes.

Section 945.341 of the Order establishes minimum grade, size, quality, maturity, pack, and container requirements for potatoes handled subject to the Order. The Order’s handling regulations currently require that U.S. No. 2 or better grade, non-Russet type potatoes meet a minimum size of 1 ⁷/₈ inches diameter, unless otherwise specified on the container in connection with the grade. Additionally, all varieties of potatoes that meet the requirements of the U.S. No. 1 grade or better may be Size B (1 ¹/₂ to 2 ¹/₄ inches) or Creamer (3/4 to 1 ⁵/₈ inches) size.

If implemented, this proposed rule would relax the size requirements to allow handlers to ship Size B (1 ¹/₂ to 2 ¹/₄ inches), U.S. No. 2 or better grade, non-Russet variety potatoes. The revised size requirements would not be applicable to Russet type potatoes.

Committee members reported that the Idaho-Eastern Oregon potato industry has been producing and shipping an increasing number of non-Russet potato varieties—yellow and red skinned,

round types, in particular. Institutional customers have indicated that they would like to purchase more of these potatoes, especially in the smaller size profiles like Size B. Currently, Size B potatoes of all varieties are required to meet the requirements of the U.S. No. 1 grade or better. The Committee believes that this requirement is too restrictive for non-Russet type potatoes and that market demand exists for Size B, non-Russet type potatoes in the U.S. No. 2 or better grade.

The Committee believes that potato size is a significant consideration of potato buyers. Providing potato buyers with the size and grade of potato desired by their customers is important to promoting potato sales. The Committee believes that size requirements intended to facilitate orderly marketing should not unintentionally inhibit a market segment, even if that segment is a minor one. Modifying the size requirements to meet the intent of the Committee would facilitate the growth of the emerging market for small profile, non-Russet potato varieties. This proposed change is expected to improve the marketing of Idaho-Eastern Oregon potatoes and enhance overall returns to handlers and producers.

Initial Regulatory Flexibility Analysis

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612), the Agricultural Marketing Service (AMS) has considered the economic impact of this proposed rule on small entities. Accordingly, AMS has prepared this initial regulatory flexibility analysis. The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Import regulations issued under the Act are based on those established under Federal marketing orders.

There are approximately 32 handlers of Idaho-Eastern Oregon potatoes who are subject to regulation under the Order and about 450 potato producers in the regulated area. Small agricultural service firms, which include potato handlers, are defined by the Small Business Administration (SBA) as those having annual receipts of less than \$30,000,000, and small agricultural producers are defined as those whose annual receipts are less than \$1,000,000 (13 CFR 121.201).

During the 2019–2020 fiscal period, the most recent full year of statistics available, 34,306,700 hundredweight of Idaho-Eastern Oregon potatoes were inspected as required by the Order and sold into the fresh market. Based on information provided by the National Agricultural Statistics Service (NASS), the average producer price for the 2019 Idaho potato crop (the most recent full marketing year recorded) was \$8.41 per hundredweight. Multiplying \$8.41 by the shipment quantity of 34,306,700 hundredweight yields an annual crop revenue estimate of \$288,519,347. The average annual fresh potato revenue for each of the 450 producers is therefore calculated to be \$641,154 (\$288,519,347 divided by 450), which is less than the SBA threshold of \$1,000,000. Consequently, on average and given a normal, bell curve distribution, most of the Idaho-Eastern Oregon potato producers may be classified as small entities.

In addition, based on information reported by USDA's Market News Service (Market News), the average Free on Board shipping point price for the 2019–2020 Idaho potato crop was \$11.90 per hundredweight. Multiplying \$11.90 by the shipment quantity of 34,306,700 hundredweight yields an annual crop revenue estimate of \$408,249,730. The average annual fresh potato revenue for each of the 32 handlers is therefore calculated to be \$12,757,804 (\$408,249,730 divided by 32), which is below the SBA threshold of \$30,000,000 for agricultural service firms. Therefore, according to a normal bell curve distribution, it can be concluded that most of the Idaho-Eastern Oregon potato handlers may be classified as small entities.

This proposed rule would revise the size requirements for non-Russet type potatoes handled under the Order. Specifically, this action would relax the size requirements to allow shipment of non-Russet type, U.S. No. 2 or better grade, Size B potatoes. All other provisions of the handling regulations would remain the same.

This proposed action was recommended by the Committee to ensure that consumers are able to purchase the size and grade of potatoes that they prefer and are familiar with. This proposed change is expected to improve the marketability of Idaho-Eastern Oregon potatoes and increase returns to handlers and producers. Authority for this proposed rule is provided in §§ 945.51 and 945.52 of the Order.

At the August 6, 2020, meeting, the Committee discussed the impact of this change on handlers and producers. The

proposed change to the size requirements is a relaxation in regulation. The proposed regulatory change is expected to have a positive, or neutral, economic impact on industry participants.

The Committee relied on the opinions of producers and handlers familiar with the industry to draw its conclusions regarding the recommended handling regulation change. The Committee received anecdotal evidence from industry members at the August 6, 2020, meeting that customers were already familiar with the Size B potato profile and the U.S. No. 2 grade standards. Allowing industry members to pack and ship such potatoes would help them to move what has traditionally been a difficult size profile to market.

The Committee believes that this change would increase the quantity of potatoes in the Size B profile that are available to the fresh market, potentially increasing producer, and handler revenue. The benefits derived from this rule change are not expected to be disproportionately more or less for small handlers or producers than for larger entities.

The Committee discussed alternatives to this proposed change. One consideration was making no change at all to the current requirements. Another alternative was to further differentiate between various varieties and types of potatoes in the handling regulations. The Committee also discussed further relaxing the handling regulations to allow shipment of U.S. No. 2 or better grade, Creamer size, non-Russet type potatoes in addition to its recommendation for Size B potatoes. After consideration of all the alternatives, the Committee believed that the proposed changes contained herein would provide the greatest benefit to producers and handlers while maintaining the integrity of the Order.

The Committee's meeting was widely publicized throughout the potato industry, and all interested persons were invited to attend the meeting and participate in Committee deliberations. Like all Committee meetings, the August 6, 2020, meeting was a public meeting and all entities, both large and small, were able to express their views on this issue. Interested persons are invited to submit comments on this proposed rule, including the regulatory and informational impacts of this action on small businesses.

In accordance with the Paperwork Reduction Act of 1995, (44 U.S.C. Chapter 35), the Order's information collection requirements have been previously approved by OMB and assigned OMB No. 0581–0178,

Vegetable and Specialty Crops. No changes are necessary in those requirements as a result of this action. Should any changes become necessary, they would be submitted to OMB for approval.

This proposed rule would not impose any additional reporting or recordkeeping requirements on either small or large potato handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies. USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this proposed rule.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <https://www.ams.usda.gov/rules-regulations/moa/small-businesses>. Any questions about the compliance guide should be sent to Richard Lower at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A 60-day comment period is provided to allow interested persons to respond to this proposal. All written comments timely received will be considered before a final determination is made on this matter.

List of Subjects in 7 CFR Part 945

Marketing agreements, Potatoes, Reporting and recordkeeping requirements.

For the reasons set forth above, AMS proposes to amend 7 CFR part 945 as follows:

PART 945—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO, AND MALHEUR COUNTY, OREGON

■ 1. The authority citation for 7 CFR part 945 continues to read as follows:

Authority: 7 U.S.C. 601–674.

■ 1. In § 945.341, revise paragraphs (a)(2)(i) through (iii) to read as follows:

§ 945.341 Handling regulation.

* * * * *

(a) * * *

(2) * * *

(i) *All varieties, except Russet types.*

(A) 1 $\frac{1}{8}$ inches minimum diameter, unless otherwise specified on the container in connection with the grade.

(B) Size B (1 $\frac{1}{2}$ to 2 $\frac{1}{4}$ inches diameter).

(ii) *Russet types.*

(A) 2 inches minimum diameter, or 4 ounces minimum weight: *Provided*, That at least 40 percent of the potatoes in each lot shall be 5 ounces or heavier.

(B) Size B (1 $\frac{1}{2}$ to 2 $\frac{1}{4}$ inches diameter), if the potatoes otherwise meet the requirements of the U.S. No. 1 grade or better.

(iii) *All varieties, U.S. No. 1 grade or better.* Creamer (3 $\frac{3}{4}$ to 1 $\frac{5}{8}$ inches diameter).

* * * * *

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

BILLING CODE 3410–02–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2021–0250; Airspace Docket No. 20–AEA–22]

RIN 2120–AA66

Proposed Establishment and Amendment of Area Navigation Routes, Northeast Corridor Atlantic Coast Routes; Northeastern United States

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify three existing high altitude area navigation (RNAV) routes (Q-routes), and establish one new Q-route, in support of the Northeast Corridor Atlantic Coast Route (NEC ACR) Project. This proposal would improve the efficiency of the National Airspace System (NAS) by expanding the availability of RNAV routing and reducing the dependency on ground-based navigational systems.

DATES: Comments must be received on or before June 7, 2021.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12–140, Washington, DC 20590; telephone: 1 (800) 647–5527 or (202) 366–9826. You must identify FAA Docket No. FAA–2021–0250; Airspace Docket No. 20–AEA–22 at the beginning of your comments. You may also submit

comments through the internet at <https://www.regulations.gov>.

FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further information, you can contact the Rules and Regulations Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11E at NARA, email: fedreg.legal@nara.gov or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would expand the availability of RNAV routes in the NAS, increase airspace capacity, and reduce complexity in high air traffic volume areas.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA–2021–0250; Airspace Docket No. 20–
