#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

This request is for an extension of a current information collection.

NOAA has established a program to reduce excess fishing capacity by paying fishermen to (1) surrender their fishing permits or (2) surrender their permits, and either scrap their vessels or restrict vessel titles to prevent fishing. These fishing capacity reduction programs, or buybacks, can be funded by a Federal loan to the industry or by direct Federal or other funding. These buybacks are conducted pursuant to the Magnuson-Stevens Fishery Conservation and Management Act, and the Magnuson-Stevens Reauthorization Act (Pub. L. 109-479). The regulations implementing the buybacks are at 50 CFR part 600.

Depending upon the type of buyback involved, the program can entail the submission of buyback requests by industry, the submission of bids, referenda of fishery participants, and reporting of the collection of fees to repay a Federal loan. For buybacks involving State-managed fisheries, the State may need to develop the buyback plan and comply with other information requirements. The information collected by NMFS is required to request a buyback, submit supporting data for requested buybacks, to submit bids, and to conduct referenda of fishery participants.

The recordkeeping and reporting requirements at 50 CFR parts 600.1013 through 600.1017 form the basis for this collection of information on fee payment and collection. NMFS requests information from participating buyback participants. This information, upon receipt, tracks the repayment of the Federal loans that are issued as part of the buybacks, and ensures accurate management and monitoring of the loans during the repayment term.

##### II. Method of Collection

Paper reports or electronic reports are required from buyback participants. Methods of submittal include mailing of paper forms, submission of forms via

the Internet, and/or facsimile transmission of paper forms.
