AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of RTCA Special Committee 206 meeting.

the California Department of Transportation (Caltrans) assumed environmental responsibilities for this project pursuant to 23 U.S.C. 327. Caltrans prepared an Environmental Assessment on a proposal for a highway and intersection improvement project in Napa and Solano Counties, California.

The proposed project would widen the two-lane, conventional highway, State Route 12—from east of the city of Napa, in Napa County to near Red Top Road, west of the city of Fairfield, in Solano County—to four lanes (a distance of 5.7 miles) and convert its western terminus into an interchange. The State Route 12 widening portion of the project is between kilo post 0.0 and R4.2 (post miles 0.0 and R2.6) in Solano County, and between kilo post 0.4 and 5.3 (post mile 0.2 and 3.3) in Napa County. The interchange portion of the project is in Napa County between kilo post 0.0 and 0.4 (post mile 0.0 and 0.2) on State Route 12 and between kilo post 6.7 and 8.7 (post mile 4.2 and 5.4) on State Route 29. The project had two build alternatives pertaining to the design—tight diamond or single point urban-of the State Routes 29/12 interchange and a No Build alternative. The anticipated permits include:

Section 7 Incidental Take Statement for the California red-legged frog (from the U.S. Fish and Wildlife Service) under the Federal Endangered Species Act).

401 Water Quality Certification (from the Regional Water Quality Control Board) under section 401 of the Clean Water Act).

404 Individual Permit (from the U.S. Army Corps of Engineers) under section 404 of the Clean Water Act).

Public meeting(s) were held in Fairfield on September 13, 2007 and Napa on September 14, 2007. The Environmental Assessment, Finding of No Significant Impact, which were approved on January 31, 2008, and other documents are available for public and agency review at the Caltrans. Address provided above.
