

final determination was posted. The Secretary will notify participants that they may view copies of filings at post offices where the final determination was posted.

§ 3025.30 Suspension pending review.

(a) *Application.* Application for suspension of a determination of the Postal Service to close or consolidate any post office pending the outcome of an appeal to the Postal Regulatory Commission shall be made at the time of the filing of a Petition for Review. The application shall show the reasons for the relief requested and the facts relied upon, and if the facts are subject to dispute the application shall be supported by affidavits or other sworn statements or copies thereof. The applicant must be a person served by the affected post office. Immediate notice of the application shall be given to all parties to the proceeding. The application shall be filed with the Secretary of the Commission.

(b) *Answer and filing of the relevant record by the Postal Service.* Within 10 days after the application for suspension is filed, the Postal Service shall file with the Secretary of the Commission and serve on the petitioners an answer to the application supported by affidavits or other sworn statements or copies thereof.

§ 3025.40 Participant statement.

(a) When a timely Petition for Review of a decision to close or consolidate a post office is filed, the Secretary shall furnish petitioner with a copy of PRC Form 61. This form is designed to inform petitioners on how to make a statement of his/her arguments in support of the petition.

(b) The instructions for PRC Form 61 shall provide:

- (1) A concise explanation of the purpose of the form;
- (2) A copy of section 404(d)(2)(A) of title 39, United States Code; and
- (3) Notification that, if petitioner prefers, he or she may file a brief in lieu of or in addition to completing PRC Form 61.

§ 3025.41 Due date for participant statement.

The statement or brief of petitioner and of any other participant seeking to have the Commission return the entire matter to the Postal Service for further consideration, shall be filed not more than 20 days after the filing of the administrative record.

§ 3025.42 Due date for Postal Service response.

The statement or brief of the Postal Service, and of any other participant

opposing return of the matter for further consideration, shall be filed not more than 14 days after the date for filing of petitioner's statement.

§ 3025.43 Due date for replies to the Postal Service.

Petitioner, and any other participant seeking to have the Commission return the matter for further consideration, may file a reply to the Postal Service response not more than 10 days after the date of the Postal Service response. Replies are limited to issues discussed in the responses of the Postal Service and other participants seeking affirmation of the Postal Service determination.

BILLING CODE 7710-FW-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 62

[EPA-R04-OAR-2010-0392(a); FRL-9628-6]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; State of Florida; Control of Large Municipal Waste Combustor (LMWC) Emissions From Existing Facilities; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correcting amendment.

SUMMARY: On December 30, 2010, EPA published a final rule approving the Clean Air Act (CAA) section 111(d)/129 State Plan (the Plan) submitted by the Florida Department of Environmental Protection for the State of Florida on July 12, 2007, for implementing and enforcing the Emissions Guidelines (EGs) applicable to existing Large Municipal Waste Combustors (LMWCs). These EGs apply to municipal waste combustors with a capacity to combust more than 250 tons per day of municipal solid waste (MSW). This action corrects an error in the regulatory language in paragraph (a) of EPA's December 30, 2010, final rule.

DATES: This action is effective February 9, 2012.

ADDRESSES: Copies of the documentation used in the action being corrected are available for inspection during normal business hours at the following location: U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The Regional Office's official

hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding federal holidays.

FOR FURTHER INFORMATION CONTACT:

Daniel Garver, Air Toxics Assessment and Implementation Section, Air Toxics and Monitoring Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-9839. Mr. Garver can also be reached via electronic mail at garver.daniel@epa.gov.

SUPPLEMENTARY INFORMATION: This action corrects an error in the regulatory language for an entry that appears in paragraph (a) of Florida's Identification of Sources at 40 CFR 62.2355. The final action determined that EPA approved the CAA section 111(d)/129 Plan applicable to LMWCs in the State of Florida on December 30, 2010 (75 FR 82269). However, EPA inadvertently indicated in 40 CFR 62.2355(a) that "the plan applies to existing facilities with a municipal waste combustor (MWC) unit capacity greater than 250 tons per day of MSW, and for which construction, reconstruction, or modification was commenced on or before July 12, 2007." The correct date is September 20, 1994. Therefore, EPA is correcting this error by deleting the date "July 12, 2007" and inserting the correct date "September 20, 1994."

EPA has determined that today's action falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedure Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation where public notice and comment procedures are impracticable, unnecessary, or contrary to the public interest. Public notice and comment for this action are unnecessary because today's action to correct an inadvertent error contained in paragraph (a) of 40 CFR 62.2355 of the rulemaking and has no substantive impact on EPA's December 30, 2010, approval. In addition, EPA can identify no particular reason why the public would be interested in being notified of the correction, or in having the opportunity to comment on the correction prior to this action being finalized, since this correction action does not change the meaning of EPA's analysis or action to approve the amendment in paragraph (a) to 40 CFR 62.2355.

EPA also finds that there is good cause under APA section 553(d)(3) for this correction to become effective on the date of publication of this action.

Section 553(d)(3) of the APA allows an effective date less than 30 days after publication “as otherwise provided by the agency for good cause found and published with the rule.” 5 U.S.C. 553(d)(3). The purpose of the 30-day waiting period prescribed in APA section 553(d)(3) is to give affected parties a reasonable time to adjust their behavior and prepare before the final rule takes effect. Today’s rule, however, does not create any new regulatory requirements such that affected parties would need time to prepare before the rule takes effect. Rather, today’s action merely corrects an error in paragraph (a) of a prior rulemaking by correcting the date as identified above in 40 CFR 62.2355 in a revision, which EPA approved on December 30, 2010. For these reasons, EPA finds good cause under APA section 553(d)(3) for this correction to become effective on the date of publication of this action.

Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This action merely corrects an error in paragraph (a) of a prior rulemaking by correcting the date as identified above in 40 CFR 62.2355, which EPA approved on December 30, 2010, and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule merely corrects an inadvertent error in paragraph (a) of a prior rule, and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This rule also does not have Federalism

implications because it does not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This rule merely corrects an error in paragraph (a) of a prior rulemaking by correcting the date as identified above in 40 CFR 62.2355, in a revision which EPA approved on December 30, 2010, and does not alter the relationship or the distribution of power and responsibilities established in the CAA. This rule also is not subject to Executive Order 13045 “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997), because it is not economically significant. In addition, this rule does not involve technical standards, thus the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule also does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. section 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 9, 2012. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules

section of today’s **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See CAA section 307(b)(2).)

List of Subjects in 40 CFR Part 62

Environmental protection, Air pollution control, Incorporation by reference, Particulate matter.

Dated: December 9, 2011.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.

40 CFR part 62 is amended as follows:

PART 62—[AMENDED]

- 1. The authority citation for part 62 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart K—Florida

- 2. In § 62.2355, paragraph (a) is revised to read as follows:

§ 62.2355 Identification of sources.

(a) The plan applies to existing facilities with a municipal waste combustor (MWC) unit capacity greater than 250 tons per day of municipal solid waste (MSW), and for which construction, reconstruction, or modification was commenced on or before September 20, 1994.
