

any comments received for a proposed generic change to operating licenses and to either reconsider the change or to proceed with announcing the availability of the change for proposed adoption by licensees. Those licensees opting to apply for the subject change to operating licenses are responsible for reviewing the NRC staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable rules and NRC procedures.

This notice involves a change that deletes a requirement for licensees to report violations of other requirements (typically in License Condition 2.C) of a facility's operating license.

Applicability

This proposal to eliminate the reporting of violations of specific requirements (typically in License Condition 2.C) of facility operating licenses is applicable to any licensee that has such a provision in its facility operating license. The NRC staff notes that many operating licenses do not contain the requirement because it was never added or was removed by a license amendment before issuance of this notice. The CLIIP also addresses similar requirements if they exist in the Administrative Section of TS. The CLIIP does not address reporting requirements contained in operating licenses other than those specifically involving reports of violations of other requirements (typically in License Condition 2.C) of the facility operating license or requirements that restate the need to submit reports in accordance with 10 CFR 50.72, "Immediate notification requirements for operating nuclear power reactors," and 10 CFR 50.73, "Licensee event report system."

To efficiently process the incoming license amendment applications, the NRC staff requests each licensee applying for the changes using the CLIIP to provide the information identified in the model application posted on the NRC Web site.

Public Notices

In a notice in the **Federal Register** dated August 29, 2005 (70 FR 51098), the NRC staff requested comment on the use of the CLIIP to process requests to delete the subject reporting requirement in operating licenses. In addition, there have been multiple notices published for plant-specific amendment requests to adopt changes similar to those described in this notice.

The NRC staff's SE and model application may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records are accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Library component on the NRC Web site, (the Electronic Reading Room).

The NRC staff received two responses following the notice published August 29, 2005 (70 FR 51098), soliciting comments on the model SE and NSHC determination related to the elimination of the reporting requirement in operating licenses. The responses were from the Nuclear Energy Institute (NEI) in a letter dated September 28, 2005, and South Carolina Electric and Gas (SCE&G) in a letter dated September 26, 2005. Both letters supported the generic approach proposed in the notice and did not offer changes to the model SE or NSHC determination. The NRC staff finds that the previously published models remain appropriate references and has chosen not to republish the model SE and model NSHC determination in this notice. As described in the model application prepared by the NRC staff, licensees may reference in their plant-specific applications to delete the reporting requirement, the SE, NSHC determination, and environmental assessment previously published in the **Federal Register** (70 FR 51098; August 29, 2005).

Dated at Rockville, Maryland, this 25th day of October 2005.

For the Nuclear Regulatory Commission,
William D. Reckley,

Senior Project Manager, Section 1, Project Directorate IV, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Railroad Retirement Board (RRB) has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s)

(1) *Collection title:* Medicare.

(2) *Form(s) submitted:* AA-6, AA-7, AA-8, RL-311-F.

(3) *OMB Number:* 3220-0082.

(4) *Expiration date of current OMB clearance:* 12/31/2005.

(5) *Type of request:* Revision of a currently approved collection.

(6) *Respondents:* Individuals or households.

(7) *Estimated annual number of respondents:* 1,040.

(8) *Total annual responses:* 1,040.

(9) *Total annual reporting hours:* 165.

(10) *Collection description:* The Railroad Retirement Board administers the Medicare program for persons covered by the railroad retirement system. The forms in the collection obtain information needed to enroll non-retired employees and survivor applicants in the plan and also obtain information from railroad employers needed to determine if a railroad retirement beneficiary is entitled to a special enrollment period when applying for supplemental medical coverage under Medicare.

Additional Information or Comments: Copies of the forms and supporting documents can be obtained from Charles Mierzwa, the agency clearance officer (312-751-3363) or Charles.Mierzwa@rrb.gov.

Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois, 60611-2092 or Ronald.Hodapp@rrb.gov and to the OMB Desk Officer for the RRB, at the Office of Management and Budget, Room 10230, New Executive Office Building, Washington, DC 20503.

Charles Mierzwa,
Clearance Officer.
