AGENCY: Department of Energy (DOE).

ACTION: Notice.

SUMMARY: DOE announces that it is reopening the scoping period and will hold additional public scoping meetings for the environmental impact statement (DOE/EIS-0307) that is being prepared in connection with an application for a Presidential permit filed by Public Service Company of New Mexico (PNM). PNM has applied for a Presidential permit to construct electric transmission lines across the U.S.-Mexican border. An EIS is being prepared because DOE has determined that the issuance of the Presidential permit would constitute a major Federal action that may have a significant impact upon the environment within the meaning of the National Environmental Policy Act of 1969 (NEPA). The purpose of this notice is to open a new scoping period to obtain comments on two additional alternative transmission corridors that have been identified. One of these new corridors has been designated by PNM as its "preferred alternative."

DATES: DOE invites interested agencies, organizations, and members of the public to submit comments or suggestions to assist in identifying significant environmental issues not
