SUPPLEMENTARY INFORMATION: Pursuant to the Presidential Memorandum, Ocean Mapping of the United States Exclusive Economic Zone and the Shoreline and Nearshore of Alaska, 84 FR 64699 (Nov. 19, 2020), the National Ocean Mapping, Exploration, and Characterization Council (NOMECE Council), on behalf of the Director of the OSTP and the Chairman of the CEQ, in their capacity as Co-Chairs of the Ocean Policy Committee, working through its Ocean Science and Technology Subcommittee and in coordination with the Administrator of NOAA, are developing an Implementation Plan for the National Strategy. The NOMECE Council has commenced development of the Implementation Plan and is soliciting public input through this RFI to obtain information from a wide range of stakeholders, including academia,

private industry, and other relevant organizations and institutions. The public input provided in response to this RFI will inform the NOMECE Council as it continues to identify strategic priorities for Exploration and Characterization within the Implementation Plan.

Questions To Inform Development of the Implementation Plan

Through this RFI, the National Ocean Mapping, Exploration, and Characterization Council seeks responses to the following questions to inform the Exploration and Characterization priorities for an Implementation Plan for the National Strategy for Ocean Mapping, Exploration, and Characterization.

1. NOMECE Strategy Goal 3.1 “Identify Strategic Priorities” describes the need for strategic ocean exploration and characterization priorities and lists some examples. What do you feel are the most important strategic national priorities for exploration and characterization efforts in the deep sea (depth >40 m)? These can be specific geographic areas within the U.S. EEZ or thematic/topical issue priorities.

2. What are the most important questions for exploration and characterization to address?

3. What are the most important data variables that need to be measured, and what are the most valuable physical samples to collect; to conduct baseline exploration and characterization?

4. What novel or established tools, platforms, and technologies could advance our capability to explore, and characterize the U.S. EEZ more efficiently and effectively? To the extent innovative capabilities already exist, but are not being effectively used, what are the barriers to adopting them? How can these barriers be overcome?

5. Deep waters within the U.S. EEZ host a wide variety of habitats and geomorphological features (e.g., continental shelves, canyons, seamounts, trenches, abyssal plains, and mesopelagic and bathypelagic zones of the water column). Which ones of these do you think are most important to explore to address the priority questions you identified above?

6. How can artificial intelligence and machine learning be used to guide planning, execution, and analysis of exploration and characterization activities?

7. How should the data generated by implementation of the Strategy be managed so that it is most accessible and useful (file formats, compatibility, etc.) to public and private sectors?

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; National Assessment of Educational Progress (NAEP) 2021 Materials Update

AGENCY: National Center for Education Statistics (NCES), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, ED is proposing a revision to an existing information collection.

DATES: Interested persons are invited to submit comments on or before November 12, 2020.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection request by selecting "Department of Education" under "Currently Under Review," then check "Only Show ICR for Public Comment" checkbox.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Carrie Clarady, 202-245-6347.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork

Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: National Assessment of Educational Progress (NAEP) 2021 Materials Update.

OMB Control Number: 1850-0928.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 329,909.

Total Estimated Number of Annual Burden Hours: 180,233.

Abstract: The National Assessment of Educational Progress (NAEP), conducted by the National Center for Education Statistics (NCES), is a federally authorized survey of student achievement at grades 4, 8, and 12 in various subject areas, such as mathematics, reading, writing, science, U.S. history, civics, geography, economics, technology and engineering literacy (TEL), and the arts. The National Assessment of Educational Progress Authorization Act (Pub. L. 107-279 Title III, section 303) requires the assessment to collect data on specified student groups and characteristics, including information organized by race/ethnicity, gender, socio-economic status, disability, and limited English proficiency. It requires fair and accurate presentation of achievement data and permits the collection of background, noncognitive, or descriptive information that is related
