Our vision is a nation where museums and libraries work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

Current Actions: This notice proposes a new three-year Generic Clearance to Conduct Pre-Testing of Surveys that will allow the agency to develop, test, and improve its surveys and methodologies. IMLS envisions using a variety of techniques including but not limited to tests of various types of survey operations, focus groups, cognitive interviews and laboratory activities, respondent debriefing questionnaires, field tests, pilot testing, exploratory interviews, experiments with questionnaire design, and user experience testing in order to identify questionnaire and procedural problems, suggest solutions, and measure the relative effectiveness of alternative solutions. Following standard OMB requirements, IMLS will submit a change request to OMB for each data collection activity undertaken under this generic clearance. Participants in some of these pre-testing activities may be subject to the safeguards provided by

the Privacy Act of 1974 (5 U.S.C. 552a). If any pre-testing activities are covered, you will find more information in a forthcoming System of Records Notice. IMLS will provide OMB with the instruments and supporting materials describing the research project and specific pre-testing activities.
