SUPPLEMENTARY INFORMATION: At its January 2008 meeting, the NCUA Board issued an ANPR addressing several issues related to credit union mergers, conversion from a credit union charter, and account insurance termination, 73 FR 5461 (Jan. 30, 2008). The ANPR requested comment on whether NCUA should issue regulations to govern merger of a federally insured credit union (FICU) into, or a FICU's conversion to, a financial institution other than a mutual savings bank, and whether NCUA should amend its regulations on mergers, charter conversions, and changes in account insurance. These transactions present issues affecting member rights and ownership interests, and the ANPR specifically requested comment on how NCUA regulations should address four categories of these issues: Management's Duties, Member Right to Equity, Communications to Members, and Member Voting. NCUA received several oral requests to extend the comment period by 30 days. The Board believes a 30-day extension will facilitate submission of comments without causing undue delay to the rulemaking process. Accordingly, the comment period for the ANPR is extended until April 30, 2008.

By the National Credit Union Administration Board on February 20, 2008.

Mary F. Rupp,

Secretary of the Board.

SUPPLEMENTARY INFORMATION: On December 27, 2007, SBA published in the **Federal Register** a proposed rule on Women-Owned Small Business Federal Contract Assistance Procedures (72 FR 73285). This proposed rule would add a new part to SBA's regulations that

would implement procedures to increase procurement opportunities for Women-Owned Small Business Concerns, as authorized under the Small Business Act. It would also make the relevant conforming amendments to SBA's current procurement regulations. The original comment period was from December 27, 2007, through February 25, 2008. SBA is reopening the comment period for a limited time until March 31, 2008 for the following reasons. First, this will accommodate the great level of interest that the proposed rule has generated and the requests to extend the comment period. Furthermore, SBA is making two necessary technical corrections to the proposed rule. The first correction is in the **ADDRESSES** section of the proposed rule and amends the Federal eRulemaking Portal Web address and all references to that Web address to read <http://www.regulations.gov>. Finally, SBA is amending the words of issuance to further emphasize that this is a proposed rule.

In SBA's docket Id fr27de07-17 appearing on page 73286 in the **Federal Register** on December 27, 2007, the **ADDRESSES** section is corrected to read as follows:

ADDRESSES: You may submit comments, identified by 3245-AF40, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

- Mail, Hand Delivery/Courier: Robert C. Taylor, Office of Contract Assistance, Office of Government Contracting, U.S. Small Business Administration, 409 3rd Street, SW., Washington, DC 20416.

All comments will be posted on <http://www.regulations.gov>. If you wish to submit confidential business information (CBI) as defined in the User Notice at <http://www.regulations.gov>, please submit the comments to Robert C. Taylor and highlight the information that you consider to be CBI and explain why you believe this information should be held confidential. SBA will make a final determination as to whether the comments will be published or not.

Furthermore on page 73295 in the **Federal Register** (72 FR 73285), the words of issuance are corrected to read as follows: Accordingly, for the reasons stated in the preamble, SBA proposes to amend 13 CFR parts 121, 125, 127 and 134 as follows:

(Authority: 15 U.S.C. 634)

Dated: February 25, 2008.

Airworthiness Directives; Boeing Model 777-200, -200LR, -300, and -300ER Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking (NPRM); reopening of comment period.

SUMMARY: We are revising an earlier proposed airworthiness directive (AD) for certain Boeing Model 777-200, -200LR, -300, and -300ER series airplanes. The original NPRM would have required revising the Airworthiness Limitations (AWLs) section of the Instructions for Continued Airworthiness by incorporating new limitations for fuel tank systems to satisfy Special Federal Aviation Regulation No. 88 requirements. The original NPRM would also have required the initial performance of certain repetitive inspections specified in the AWLs to phase in those inspections, and repair if necessary. The original NPRM resulted from a design review of the fuel tank systems. This action revises the original NPRM by reducing the initial compliance time of certain repetitive inspections, adding more airplanes, and referring to new service information. We are proposing this supplemental NPRM to prevent the potential for ignition sources inside fuel tanks caused by latent failures, alterations, repairs, or maintenance actions, which, in combination with flammable fuel vapors, could result in fuel tank explosions and consequent loss of the airplane.

DATES: We must receive comments on this supplemental NPRM by March 19, 2008.
