

separately from the limited entry permit.

* * * * *

■ 6. In § 660.365, the introductory paragraph and paragraphs (e) through (h) are added to read as follows:

§ 660.365 Overfished species rebuilding plans.

For each overfished groundfish stock with an approved rebuilding plan, this section contains the standards to be used to establish annual or biennial OYs, specifically the target date for rebuilding the stock to its MSY level and the harvest control rule to be used to rebuild the stock.

* * * * *

(e) *Bocaccio*. The target date for rebuilding the southern bocaccio stock to B_{MSY} is 2023. The harvest control rule to be used to rebuild the southern bocaccio stock is an annual harvest rate of $F=0.0498$.

(f) *Cowcod*. The target year for rebuilding the cowcod stock south of Point Conception to B_{MSY} is 2090. The harvest control rule to be used to rebuild the cowcod stock is an annual harvest rate of $F=0.009$.

(g) *Widow rockfish*. The target year for rebuilding the widow rockfish stock to B_{MSY} is 2038. The harvest control rule to be used to rebuild the widow rockfish stock is an annual harvest rate of $F=0.0093$.

(h) *Yelloweye rockfish*. The target year for rebuilding the yelloweye rockfish stock to B_{MSY} is 2058. The harvest control rule to be used to rebuild the yelloweye rockfish stock is an annual harvest rate of $F=0.0153$.

■ 7. In § 660.373, paragraph (h)(3) is revised to read as follows:

§ 660.373 Pacific whiting (whiting) fishery management.

* * * * *

(h) * * *

(3) When renewing its limited entry permit each year under § 660.335, the owner of a catcher/processor used to take and retain whiting must declare if the vessel will operate solely as a mothership in the whiting fishery during the calendar year to which its limited entry permit applies. Any such declaration is binding on the vessel for the calendar year, even if the permit is transferred during the year, unless it is rescinded in response to a written request from the permit holder. Any request to rescind a declaration must be

made by the permit holder and granted in writing by the Regional Administrator before any unprocessed whiting has been taken on board the vessel that calendar year.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 031124287-4060-02; I.D. 092204A]

Fisheries of the Exclusive Economic Zone Off Alaska; Atka Mackerel in the Central Aleutian District of the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Atka mackerel in the Central Aleutian District of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2004 total allowable catch (TAC) of Atka mackerel in this area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 23, 2004, through 2400 hrs, A.l.t., December 31, 2004.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2004 TAC specified for Atka mackerel in the Central Aleutian District of the BSAI is 28,768 metric tons (mt) as established by the 2004 harvest

specifications for groundfish of the BSAI (69 FR 9242, February 27, 2004).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2004 TAC for Atka mackerel in the Central Aleutian District will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 28,650 mt, and is setting aside the remaining 118 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Atka mackerel in the Central Aleutian District of the BSAI.

After the effective date of this closure the maximum retainable amounts at 50 CFR 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such a requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of the directed fishery for Atka mackerel in the Central Aleutian District of the BSAI.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 22, 2004.

Alan D. Risenhoover,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
