Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211

and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

AmerenUE; Notice of Availability of Final Environmental Assessment

August 14, 2007.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR) (18 CFR Part 380), the Office of Energy Projects has prepared a Final Environmental Assessment (FEA) regarding AmerenUE's request to rebuild the upper reservoir of the Taum Sauk Pumped Storage Project (FERC No. 2277), located on the East Fork Black River, in Reynolds County, Missouri. The FEA analyzes the environmental effects of the reconstruction of the upper reservoir and contains measures to minimize those effects. The FEA concludes that the proposed reconstruction, with recommended mitigation measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the FEA is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the e-Library link. Enter the docket number "P-2277" in the docket number field to access the document. For assistance, call (202) 502-8222 or (202) 502-8659 (for TTY).

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF07-4-000]

Midcontinent Express Pipeline, LLC; Supplemental Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Midcontinent Express Project, Request for Comments on Environmental Issues, and Notice of Public Site Visit

August 14, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will identify and address the environmental impacts that could result from the construction and operation of the Midcontinent Express Pipeline Project (Project) proposed by Midcontinent Express Pipeline, LLC (MEP). On June 25, 2007, MEP filed draft Resource Reports that identified a modification to the Project in Richland and Madison Parishes, Louisiana, consisting of an approximately 4.2-mile-long lateral pipeline (CenterPoint Lateral). MEP subsequently filed additional information clarifying the location of the Project facilities associated with the CenterPoint Lateral on August 3, 2007.

On April 27, 2007, the FERC issued a "Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Midcontinent Express Pipeline Project, Request for Comments on Environmental Issues and Notice of Public Scoping Meetings" (NOI). The NOI was published in the **Federal Register** and was also mailed to interested parties, including Federal, state and local officials, agency representatives, conservation organizations; Native American groups; local libraries and newspapers; and property owners affected by the proposed facilities. This notice is being issued because the CenterPoint Lateral was not identified in the NOI, and landowners potentially affected by that facility were therefore not included on the environmental mailing list for that correspondence.

In order to assist staff with the identification of environmental issues

associated with the modified facilities and to comply with the requirements of the National Environmental Policy Act of 1969 (NEPA), a 30-day scoping period has been opened to receive comments on the proposed Project, as modified by the addition of the CenterPoint Lateral. Please note that the scoping period for this project will close on September 10, 2007.

Comments on the Project and the issues that should be addressed in the EIS may be submitted in written form. Further details on how to submit written comments are provided in the Public Participation section of this notice. Additionally, as part of the scoping process, we will sponsor a public site visit of the proposed CenterPoint Lateral, as described below. Please note that attendees at the site visit must obtain their own transportation for the site visit.

Date and time	Location
Tuesday, August 28, 2007, 9 am (CST).	Delhi Municipal Airport (parking lot), Airport Road/Louisiana Highway 17, Delhi, Louisiana 71232

This notice is being sent to landowners affected by the CenterPoint Lateral, as well as those that previously requested to remain on the Project environmental mailing list; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers; all of which are encouraged to submit comments on the proposed Project. Details on how to submit comments are provided in the Public Participation section of this notice.

If you are a landowner receiving this notice, you may be contacted by an MEP representative about the acquisition of an easement to construct, operate, and maintain the proposed project facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the FERC, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility on My Land? What Do I Need To Know?" is available for viewing on
