

the closure of Zone 4 would not be achieved. This realization, coupled with the availability of adequate storage space in Zone 4 to accommodate both surplus pits and weapons dismantlement activities, as well as concerns expressed by the Defense Nuclear Facilities Safety Board over storing both national security and surplus pits in Zone 12, led DOE to reexamine whether it would be more appropriate to continue storing surplus pits in Zone 4.

The storage of surplus pits in Zone 4 at Pantex is ongoing and consistent with the current storage practices and was evaluated as part of the No Action Alternative in the Storage and Disposition PEIS. The SPD EIS ROD also acknowledged that DOE was considering leaving the surplus pits in Zone 4, pending disposition at SRS.

D. MOX Fuel Program

Section 3155(c) of The National Defense Authorization Act for Fiscal Year 2002 required the Department to submit to Congress by February 1, 2002, a plan for disposal of the surplus plutonium currently located at SRS or to be shipped to SRS in the future. Section 3155(d) also required the Department to submit a plan for a disposition path for plutonium that would otherwise have been disposed of at an immobilization facility or at a MOX facility, if the Department determines not to proceed with either facility. In response to this Congressional mandate, DOE/NNSA, on February 15, 2002 (and supplemented by letter on March 5, 2002) submitted a document entitled Report to Congress: Disposition of Surplus Defense Plutonium at Savannah River Site. That report states that DOE/NNSA's current disposition strategy involves a MOX-only approach, under which DOE/NNSA would dispose of up to 34 t of surplus plutonium by converting it to MOX fuel and irradiating it in commercial power reactors. Implementation of this strategy is key to the successful completion of the agreement between the U.S. and the Russian Federation discussed in Section I.A., above. DOE is currently analyzing the changes to the MOX fuel portion of the surplus plutonium disposition program needed to carry out that strategy, including analysis conducted pursuant to NEPA. No final decisions regarding the MOX portion of the surplus plutonium disposition program will be made until DOE/NNSA has completed this analysis.

Amended Decisions

DOE/NNSA is modifying its decisions on storage and disposition of surplus plutonium as follows:

- Cancel the immobilization portion of DOE/NNSA's disposition strategy.
- Select the alternative of consolidated long-term storage at SRS of non-pit surplus plutonium now stored separately at RFETS and at SRS.
- Utilize the KAMS facility for consolidated long-term storage of surplus plutonium.
- Continue storage of surplus pits in Zone 4 at Pantex in lieu of storage in Zone 12.

Issued in Washington, DC, April 15, 2002.

John A. Gordon,

Administrator, National Nuclear Security Administration.
