Little Falls Hydroelectric Associates, LP; Notice of Intent To Prepare an Environmental Assessment

On August 31, 2021, Little Falls Hydroelectric Associates, LP (Little Falls Associates) filed an application for a new major license for the 13.3-megawatt Little Falls Hydroelectric Project (Little Falls Project; FERC No. 3509). The Little Falls Project is located on the Mohawk River, in the City of Little Falls, Herkimer County, New York. The project does not occupy federal land.

In accordance with the Commission's regulations, on May 25, 2022, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to relicense the Little Falls Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA	December 2022. ¹

Milestone	Target date
