RIN 0648-BF72

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Amendment 19 to the Atlantic Sea Scallop Fishery Management Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of fishery management plan amendment; request for comments.

SUMMARY: The New England Fishery Management Council has submitted to NMFS Amendment 19 to the Atlantic Sea Scallop Fishery Management Plan which proposes to incorporate a specifications process into the Atlantic Sea Scallop Fishery Management Plan and to change the start of the fishing year from March 1 to April 1. The ability to develop specifications to set annual or biennial allocations would allow for a more timely process for setting annual allocations than currently possible with framework adjustments. By adjusting the start of the scallop fishing year from March 1 to April 1, NMFS would be able to implement simple specification actions at the start of the fishing year on a more consistent basis. NMFS requests public comments on whether NMFS should approve this amendment and the draft Environmental Assessment incorporated in the amendment.
