

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that it will take the approximately 6,112 respondents, which include grantees and subgrantees under formula and discretionary programs authorized by the Violence Against Women Act of 1994 (as amended) and administered by the Office on Violence Against Women, approximately 60 minutes to complete a performance reporting form that is specific to the OVW grant program under which they receive funding. In

addition, a grantee or subgrantee will only be required to complete the sections of the form that pertain to those specific activities that are supported by federal funding and permissible under the authorizing legislation.

6. *An estimate of the total public burden (in hours) associated with the collection:* The total hour burden to complete the data collection form is 9,112 hours, that is 3,112 formula program grantees and subgrantees completing a form once a year with an estimated completion time for the form being one hour and 3,000 discretionary

program grantees completing a form twice a year with an estimated completion time of one hour.

7. *An estimate of the total annual cost burden associated with the collection, if applicable:* The annualized costs to the Federal Government resulting from the OVW staff review of the performance reports submitted by grantees are estimated to be \$800,000. This includes the cost of building and maintaining this data collection as well as administrative costs.

8. *Total Burden Hours:*

Activity	Estimated number of respondents	Frequency	Total annual responses	Time per response (min)	Total annual burden (hours)
Formula Administrator Performance Reporting Form	112	Annually	1 time	60	112
Formula Subgrantee Performance Reporting Form	3,000	Annually	1 time	60	3,000
Discretionary Performance Reporting Form	3,000	Semi-annually ...	2 times	60	6,000
<i>Total</i>	9,112

Abstract: Through the National Prisoner Statistics program (NPS), the Bureau of Justice Statistics (BJS) collects annual aggregate counts of prisoners in the custody and under the jurisdiction of state and federal correctional authorities, as well as the number of

persons admitted or released. BJS uses the NPS to report each year on the changes to and movement through state and federal prison systems by sentenced individuals. These statistics contribute fundamentally to BJS's mission of describing the movements of persons through the criminal justice system. Revisions to the collection include removing the HIV/AIDS module from the survey in part due to minimal year over year change in counts. These items may be included with other health-related questions in periodic supplements as part of the NPS program. Additionally, BJS plans to cognitively test a new format for collecting race and ethnicity data in alignment with the revised 2024 OMB Statistical Policy Directive No. 15. Additionally, BJS will assess the availability of more detailed race and ethnicity information within the respondents' data systems.
