Notice of Availability of Solicitation

AGENCY: Albuquerque Operations Office, Department of Energy.

ACTION: Notice of availability of solicitation—Geothermal Resource Exploration and Definition II (GRED II).

SUMMARY: The U. S. Department of Energy (DOE), Albuquerque Operations Office (AL), anticipates issuing Solicitation No. DE-SC04-02AL67912 for a second program on Geothermal Resource Exploration and Definition. This program is in support of the Geothermal Energy Program and has the primary objective of developing collaborative efforts to support the exploration and definition of new geothermal resources in geographically diverse regions with the objective of providing additional geothermal power. Projects may consist of up to three phases: (1) Phase I is Resource Evaluation and may include new exploration work to discover a probable geothermal resource and select a site for drilling a geothermal exploration well; (2) Phase II is Drilling and Characterization and consists of the drilling of a test well, logging and coring as appropriate, and initial testing of the well; (3) Phase III is Testing and Assessment and consists of long term flow and temperature tests in the well and final assessment of the site. Proposed projects are for up to three years and may begin at any phase, but documentation will be required for all three phases. One or more projects will be funded under the Fiscal Year 2002 funding level of up to \$600,000 with a maximum DOE cost share of 80%. Funding for subsequent years is dependent on Congressional appropriations and Departmental priorities.

DATES: The solicitation will be available on April 1, 2002.

[Docket No. EE-RM/TP-02-001]

RIN 1904-AB12

Energy Conservation Program for Consumer Products: Test Procedure for Refrigerators and Refrigerator-Freezers

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of extension of interim waiver.

SUMMARY: On August 3, 2001, the Department of Energy (DOE) published a **Federal Register** Notice granting an application for Interim Waiver to Electrolux Home Products (Electrolux) and published a Petition for Waiver from the DOE refrigerator and refrigerator-freezer test procedure. In today's action, DOE is extending the interim waiver for 180 days, or until July 25, 2002.

FOR FURTHER INFORMATION CONTACT: Michael Raymond at (202) 586-9611, E-mail: michael.raymond@ee.doe.gov, or Francine Pinto, Esq., (202) 586-7432, E-mail: Francine.Pinto@HQ.DOE.GOV.

SUPPLEMENTARY INFORMATION: On July 30, 2001, DOE issued an interim waiver from the DOE refrigerator and refrigerator-freezer test procedure to Electrolux. (66 FR 40689). Pursuant to 10 CFR 430.27(h), "an interim waiver will terminate 180 days after issuance or upon the determination on the Petition for Waiver, whichever occurs first. An interim waiver may be extended by DOE for 180 days. Notice of such extension and/or any modification of the terms or duration of the interim waiver shall be published in the **Federal Register**, and shall be based on relevant information contained in the record and any comments received subsequent to issuance of the interim waiver." The 180-day period for the interim waiver ended on January 26, 2002.

Since DOE intends to promptly amend its refrigerator and refrigerator-freezer test procedures so as to eliminate any need for continuation of the waiver, DOE has determined that it is appropriate to grant an extension of the interim waiver to Electrolux for an additional 180 days, or until July 25, 2002. Before that date, DOE will publish a direct final rule amending the refrigerator and refrigerator-freezer test procedure so as to permit all interested parties to calculate the long-time automatic defrost test period in the
