SUPPLEMENTARY INFORMATION:**I. Abstract**

The U.S. Geological Survey (USGS) is responsible for maintaining the national archive of Landsat data and distributing data to users. The Landsat Program benefits a wide community of users, including federal, state, and local governments, the global change research community, national security agencies, academia, and private sector users. The USGS Land Remote Sensing Program (LRS) initiated this information collection as part of a regulation mandate to lead efforts to develop a long-term plan to achieve technical, financial, and managerial stability for operational land imaging. To address this data need this information collection is designed to: (1) Better understand the uses and applications of moderate-resolution satellite imagery, (2) identify and classify the breadth and depth of the users of these imagery, and (3) determine the societal benefits of Landsat. This information collection will be conducted by scientists and staff in the Policy Analysis and Science Assistance Branch (PASA) of the USGS. The information collection will be conducted online and utilizes five forms.

II. Data

OMB Control Number: 1028-NEW.

Title: The Societal Uses and Benefits of Moderate-Resolution Satellite Imagery.

Respondent Obligation: Voluntary.

Frequency of Collection: One-time.

Estimated Annual Number of and Description of Respondents: 3983. State and Local Government, private individuals, state and local land management officials, scientists, and geographic researchers.

	Annual number of responses	Estimated completion time per respondent (min)	Estimated annual burden
Form 1	971	35	567
Form 2	971	25	404
Forms 3 and 4	1941	15	486
Form 5	100	3	5
Total	3983		1462

Estimated Annual Reporting and Recordkeeping "Non-Hour Cost": There are no "non-hour cost" burdens associated with this collection of information.

III. Request for Comments

On September 4, 2008, we published a **Federal Register** notice (73 FR 51645) announcing that we would submit this information collection to OMB for approval. The notice provided a 60-day comment period ending on November 4,

2008. We did not receive any comments in response to that notice.

We again invite comments concerning this ICR on: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is

useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (d) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publicly available at anytime. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: May 4, 2009.

Bruce K. Quirk,

Land Remote Sensing Program Coordinator.

DEPARTMENT OF THE INTERIOR

National Park Service

Final Environmental Impact Statement: Mountain Lakes Fisheries Management Plan; North Cascades National Park Complex, Skagit and Whatcom Counties, WA; Notice of Approval of Record of Decision

Summary: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969 (Pub. L. 91-190, as amended) and the regulations promulgated by the Council on Environmental Quality (40 CFR Part 1505.2), the Department of the Interior, National Park Service has prepared and approved a Record of Decision for the Final Environmental Impact Statement (FEIS) for the *Mountain Lakes Fisheries Management Plan*, prepared pursuant to a 1991 Consent Decree between the North Cascades Conservation Council and the National Park Service. The FEIS and Draft EIS were prepared in cooperation with the Washington Department of Fish and Wildlife (WDFW). The requisite no-action "wait period" was initiated July 18, 2008, with the Environmental Protection Agency's notification of the filing of the FEIS published in the **Federal Register**.

Decision: North Cascades National Park Complex, in concert with the WDFW, will undertake a suite of actions necessary to conserve native biological

integrity, while providing for a spectrum of recreational opportunities, including sport fishing and wilderness visitor experience. Key steps for successfully implementing the selected alternative (Management Alternative B as detailed in the FEIS) include but are not limited to:

- Lakes which are currently fishless will remain so in the future;
- High densities of reproducing fish will be removed from up to 27 lakes;
- Stocking will continue in up to 42 lakes, with a long-term goal of utilizing only fish incapable of reproducing and establishing self-sustaining populations; and
- Long term monitoring of the status of native species, including amphibians and benthic macro vertebrates, will be maintained.

Implementation of Management Alternative B requires authorization from Congress that fish stocking is appropriate within North Cascades National Park Complex. In addition to the selected alternative, the Draft EIS and FEIS also assessed the foreseeable environmental consequences a No Action alternative and two additional "action" alternatives. As documented in the Draft EIS and FEIS, Management Alternative D was deemed to be the "environmentally preferred" course of action.

Copies: Interested parties desiring to review the Record of Decision may obtain a copy by contacting the Superintendent, North Cascades National Park Complex, 810 State Route 20, Sedro Woolley, Washington, CA 98284 or via telephone request at (360) 854-7300.

Dated: December 10, 2008.

George J. Turnbull,

Acting Regional Director, Pacific West Region.

Editorial Note: This document was received in the Office of the Federal Register on May 5, 2009.

DEPARTMENT OF JUSTICE

Bureau of Alcohol, Tobacco, Firearms and Explosives

[OMB Number 1140-0071]

Agency Information Collection Activities: Proposed Collection; Comments Requested

ACTION: 30-Day Notice of Information Collection Under Review: Notification to Fire Safety Authority of Storage of Explosive Materials.

The Department of Justice (DOJ), Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. This proposed information collection was previously published in the **Federal Register** Volume 74, Number 40 page 9266-9267, on March 3, 2008, allowing for a 60-day comment period.

The purpose of this notice is to allow for an additional 30 days for public comment until June 8, 2009. This process is conducted in accordance with 5 CFR 1320.10.

Written comments and/or suggestions regarding the items contained in this notice, especially the estimated public burden and associated response time, should be directed to The Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Department of Justice Desk Officer, Washington, DC 20503. Additionally, comments may be submitted to OMB via facsimile to (202) 395-5806.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.
