

diseases affect the growth and survival of juvenile salmonids in the estuarine and early ocean environments. This proposed research project is intended to complement the pathogen research that is being conducted by the Environmental Conservation Division, NWFSC, NMFS under scientific research permit 1140 (see 63 FR 18891, April 16, 1998). ESA-listed juvenile fish are proposed to be captured, handled, and released or taken lethally. ESA-listed juvenile fish indirect mortalities are also requested. ESA-listed juvenile fish indirect mortalities are proposed to be retained for research purposes or returned to the water.

The Columbia River Research Laboratory, USGS requests a 5-year permit (1291) for annual takes of SnR sockeye salmon, SnR spring/summer chinook salmon, SnR fall chinook salmon, UCR spring chinook salmon, SnR steelhead, UCR steelhead, and MCR steelhead associated with scientific research at John Day, The Dalles, and Bonneville Dams on the lower Columbia River in the Pacific Northwest. The purpose of the research is to monitor juvenile fish movement, distribution, behavior, and survival from John Day Dam downstream past Bonneville Dam using radiotelemetry technology. The research will benefit ESA-listed fish species by providing information on spill effectiveness, forebay residence times, and guidance efficiency under various flow regimes that will allow Federal resource managers to make adjustments to bypass/collection structures to optimize downriver migrant survival at the hydropower projects. The proposed research is intended to complement the research that is being conducted by USGS under scientific research permit 1130 (see 63 FR 9505, February 25, 1998). ESA-listed juvenile fish are proposed to be obtained from Smolt Monitoring Program (SMP) personnel at Bonneville and/or John Day Dams, handled, and released or implanted with radio transmitters, transported, held for as long as 24 hours, released, and tracked electronically. SMP personnel are authorized to collect ESA-listed juvenile fish under a separate take authorization. ESA-listed juvenile fish indirect mortalities associated with the research are also requested.

The Pacific Northwest Research Station of USFS requests a 2-year permit (1292) for annual takes of UCR spring chinook salmon, UCR steelhead, and MCR steelhead associated with research to be conducted in the Yakima River subbasin, the Wenatchee River subbasin, the Entiat River subbasin, and the Methow River subbasin in

Washington. The purpose of the research is to determine the extent and distribution of hybridization between westslope cutthroat trout, rainbow trout, and anadromous steelhead for selected populations in the MCR and UCR Basins. The research will benefit ESA-listed species by providing information on westslope cutthroat trout and rainbow trout/steelhead interactions and could provide insight into possible genetic introgression of introduced rainbow trout stocks in the areas of native rainbow trout/steelhead distribution. USFS also proposes to analyze phenotypic characteristics that may be used by biologists in the future to more definitively distinguish cutthroat trout, rainbow trout/steelhead, and hybrid forms in the field. ESA-listed juvenile fish are proposed to be captured by the use of angling with flies that have barbless hooks. After being captured, the juvenile fish are proposed to be released immediately (in the case of non-target species) or examined for biological information, sampled non-lethally for caudal fin tissue, and released. ESA-listed juvenile fish indirect mortalities associated with the research are also requested.

Dated: February 13, 2001.

Phil Williams,

*Acting Chief, Endangered Species Division,
Office of Protected Resources, National
Marine Fisheries Service.*

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D.020601A]

Marine Mammals; File No. 782-1446-03

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit amendment.

SUMMARY: Notice is hereby given that the Alaska Fisheries Science Center, National Marine Mammal Laboratory, 7600 Sand Point Way, NE, Seattle, WA 98115 has been issued an amendment to scientific research Permit No. 782-1446.

ADDRESSES: The amendment and related documents are available for review upon written request or by appointment in the following office(s):

Permits and Documentation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910 (301/713-2289);

Northwest Region, National Marine Fisheries Service, NOAA, 7600 Sand Point Way, NE, BIN C15700, Seattle, WA 98115-0070 (206/526-6150); and Regional Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213 (562/980-4001).

FOR FURTHER INFORMATION CONTACT:

Ruth Johnson or Tammy Adams, 301/713-2289.

SUPPLEMENTARY INFORMATION: On December 27, 2000 notice was published in the **Federal Register** (65 FR 81844) that an amendment of Permit No. 782-1446, issued May 8, 1998 (63 FR 27265), had been requested by the above-named organization. The requested amendment has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 782-1446 authorizes the permit holder to annually conduct aerial, ground and vessel surveys and capture and tagging studies for stock assessment of harbor seals (*Phoca vitulina*), California sea lions (*Zalophus californianus*), Steller sea lions (*Eumetopias jubatus*), and northern elephant seals (*Mirounga angustirostris*).

The amendment now authorizes the capture, sampling and local or gas anesthesia for California sea lions of both sexes and ages 1 month through 5 years at hauling and breeding sites and incidental harassment of northern elephant.

Dated: February 13, 2001.

Eugene Nitta,

*Acting Chief, Permits and Documentation
Division, Office of Protected Resources,
National Marine Fisheries Service.*
