Ltd. (collectively, Nozawa) had no shipments of polyethylene retail carrier bags (PRCBs) from the People's Republic of China (China) to the United States during the period of review (POR), August 1, 2021, through July 31, 2022.

SUPPLEMENTARY INFORMATION:

Background

On February 16, 2023, Commerce published the preliminary results of the 2021-2022 administrative review of the antidumping duty order on PRCBs from China.¹ We invited parties to comment on the *Preliminary Results*.² No party submitted comments or requested that Commerce hold a hearing. Commerce conducted this review in accordance with sections 751(a)(1)(B) and (2) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order³

The products covered by the *Order* are PRCBs which may be referred to as t-shirt sacks, merchandise bags, grocery bags, or checkout bags. The subject merchandise is defined as non-sealable sacks and bags with handles (including drawstrings), without zippers or integral extruded closures, with or without gussets, with or without printing, of polyethylene film having a thickness no greater than 0.035 inch (0.889 mm) and no less than 0.00035 inch (0.00889 mm), and with no length or width shorter than 6 inches (15.24 cm) or longer than 40 inches (101.6 cm). The depth of the bag may be shorter than 6 inches but not longer than 40 inches (101.6 cm).

PRCBs are typically provided without any consumer packaging and free of charge by retail establishments, e.g., grocery, drug, convenience, department, specialty retail, discount stores, and restaurants, to their customers to package and carry their purchased products. The scope of the *Order* excludes (1) polyethylene bags that are not printed with logos or store names and that are closeable with drawstrings made of polyethylene film and (2) polyethylene bags that are packed in

consumer packaging with printing that refers to specific end-uses other than packaging and carrying merchandise from retail establishments, e.g., garbage bags, lawn bags, trash-can liners.

Imports of the subject merchandise are currently classifiable under statistical category 3923.21.0090 of the Harmonized Tariff Schedule of the United States (HTSUS). This subheading also covers products that are outside the scope of this *Order*. Furthermore, although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this *Order* is dispositive.

Final Determination of No Shipments

In the *Preliminary Results*, Commerce preliminarily determined that Nozawa had no shipments of subject merchandise during the POR.⁴ We received no comments from interested parties with respect to this claim. Therefore, because we have not received any information to contradict our preliminary no-shipments determination, or any comment in opposition to our preliminary finding, Commerce continues to find that Nozawa had no shipments during the POR.

China-Wide Entity

Commerce's policy regarding conditional review of the China-wide entity applies to this administrative review.⁵ Under this policy, the China-wide entity will not be under review unless a party specifically requests, or Commerce self-initiates, a review of the entity. Because no party requested a review of the China-wide entity, and we did not self-initiate a review, the China-wide entity rate (i.e., 77.57 percent)⁶ is not subject to change as a result of this review.

Disclosure

Normally, Commerce discloses to interested parties the calculations performed in connection with the preliminary results within five days of the public announcement, or if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). However, Commerce did not calculate a weighted-average dumping margin for Nozawa, the sole mandatory
