Title: 7 CFR part 1724, Electric Engineering, Architectural Services and Design Policies and Procedures.
OMB Control Number: 0572–0118.
Type of Request: Extension of a currently approved collection.
Abstract: The Agency requires borrowers to use standard contract forms under certain circumstances. The use of standard forms helps assure the Agency that appropriate standards and specifications are maintained, that the Agency’s loan security is not adversely affected, and that loan and loan guarantee funds are used effectively and for the intended purpose. Standardization of forms by the Agency results in substantial savings to Borrowers. If standard forms were not used, borrowers would be required to prepare documents and the government would require extensively and costly review by both the Agency and the Office of General Counsel. The contract forms included in this collection of

information are RUS Form 211, “Engineering Service Contract for the Design and Construction of a Generating Plant,” RUS Form 220, “Architectural Services Contract,” and RUS Form 236, Engineering Service Contract, “Electric System Design and Construction.”
Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1.07 hours per response.
Respondents: Businesses, not-for-profit institutions and others.
Estimated Number of Respondents: 59.
Estimated Number of Responses per Respondent: 1.
Estimated Total Annual Burden on Respondents: 63 hours.
