SUPPLEMENTARY INFORMATION: On January 25, 2008, we published a notice of temporary deviation from the regulations entitled “Drawbridge Operation Regulations; Potomac River, Between Maryland and Virginia” in the **Federal Register** (73 FR 4472).

The Maryland State Highway Administration and the Virginia Department of Transportation, co-owners of the drawbridge, requested an extension of the aforementioned temporary deviation with new dates in an effort to minimize the potential for major regional traffic impacts and consequences during bridge openings while construction continues.

Bridge owners requested that the new drawbridge not be available for openings for vessels each day between the hours of 10 a.m. to 2 p.m. from Sunday, March 2, 2008 through Friday, May 30, 2008. The temporary deviation will only affect vessels with mast heights of 75 feet or greater. Furthermore, all affected vessels with mast heights greater than 75 feet will be able to receive an opening of the new drawbridge in the “off-peak” vehicle traffic hours (evening and overnight) in accordance with 33 CFR 117.255(a).

The Coast Guard will inform the users of the waterway through our Local and Broadcast Notices to Mariners of the closure period for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.
