

administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Open Licensing Requirements:* Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works.

Additionally, a grantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

5. *Performance Measures:* For the purposes of reporting under 34 CFR 75.110, we have established a set of performance measures, including long-term measures, that are designed to yield information on various aspects of the effectiveness and quality of the Educational Technology, Media, and Materials (ETechM2) for Individuals with Disabilities program. These measures are:

- *Program Performance Measure 1:* The percentage of ETechM2 program products and services judged to be of high quality by an independent review panel of experts qualified to review the substantial content of the products and services.

- *Program Performance Measure 2:* The percentage of ETechM2 program products and services judged to be of high relevance to improving outcomes for infants, toddlers, children, and youth with disabilities.

- *Program Performance Measure 3:* The percentage of ETechM2 program products and services judged to be useful in improving results for infants, toddlers, children, and youth with disabilities.

- *Program Performance Measure 4.1:* The Federal cost per unit of accessible educational materials funded by the ETechM2 program.

- *Program Performance Measure 4.2:* The Federal cost per unit of accessible educational materials from the National Instructional Materials Access Center funded by the ETechM2 program.

- *Program Performance Measure 4.3:* The Federal cost per unit of video description funded by the ETechM2 program.

These measures apply to projects funded under this competition, and grantees are required to submit data on these measures as directed by OSEP.

Grantees will be required to report information on their project's performance in annual performance reports and additional performance data to the Department (34 CFR 75.590 and 75.591).

6. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, whether the grantee has made substantial progress in achieving the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

[Docket No. CP22-16-000]

Georgia-Pacific Consumer Operations LLC; Notice of Schedule for the Preparation of an Environmental Assessment for the Georgia-Pacific Consumer Pipeline Abandonment Project

On November 16, 2021, Georgia-Pacific Consumer Operations LLC (GPC) filed an application in Docket No. CP22-16-000 requesting Authorization pursuant to Section 7(b) of the Natural Gas Act to abandon certain gas pipeline facilities. The proposed project is known as the Georgia-Pacific Consumer Pipeline Abandonment Project (Project) and involves abandoning natural gas transmission pipeline and auxiliary facilities in Union Parish, Louisiana and Ashley County, Arkansas.

On November 30, 2021, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.¹

Schedule for Environmental Review
