

Chair. This first meeting of the Working group will address organizational issues; a review of its statutory charge, review of applicable Federal regulations governing its work, the development of additional policies to govern its operations, and the establishment of the format, location, and schedule for their initial meetings. The official agenda will be available on AHRA's Web site at <http://www.ahrq.gov> no later than April 1, 2005.

Dated: March 24, 2005.

Carolyn M. Clancy,
Director.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-371-5983 or send

comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project: Human Behavior in Fire Study—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description: This project will characterize the behaviors of individuals who were involved in a residential fire, and determine which behaviors are associated with injuries sustained in the fire incident. Behaviors related to fire escape planning and practice, smoke alarm installation and maintenance, physical and visual access to escape routes, etc., will be studied. In the United States each year, there are approximately 400,000 residential fires, with 14,000 non-fatal and 3,000 fatal

civilian injuries. In line with Healthy People 2010 objectives, NCIPC works to reduce and eliminate non-fatal and fatal injuries from residential fires. In order to develop effective fire-related injury prevention programs, a better understanding of human behavior in fires is needed.

The design of this study will be a matched-pair, case-control study. Cases will be defined as individuals who were injured in a residential fire and controls will be individuals who were involved in a residential fire, but were not injured. Fire incidents involving a fatality will be excluded from this study. Local fire departments throughout the United States will submit fire incident reports to study personnel, who will select incidents based on geographical location. Further screening for eligibility will be done using a brief telephone interview. For those selected, interviewers will conduct in-depth, computer-assisted face-to-face interviews with participants. The sequence of events surrounding the fire and the behaviors of interviewees will be ascertained using the Behavioral Sequence Interview Technique. In addition, information on the nature of injuries sustained; characteristics of the fire and home structure; other occupants present; previous fire experiences; safety training; and demographics on the persons interviewed will be collected. The only cost to the respondents is the time involved to complete the screening and/or face-to-face interviews.

Estimate of Annualized Burden Table:

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Adults—Screened	1,250	1	15/60	313
Adults—Cases and Controls	1,000	1	1	1,000
Total				1,313

Dated: March 21, 2005.

Betsey Dunaway,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on

proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-371-5983 or send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information

is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Understanding the Community Context of the Diabetes Education in Tribal Schools Project—New—National Center for Chronic Disease Prevention and Health Promotion/Division of Diabetes Translation (NCCDPHP/DDT),

Centers for Disease Control and Prevention (CDC).

Background and Brief Description: This study is part of a larger evaluation of the multi-year Diabetes Education in Tribal Schools (DETS) project to develop and pilot test a science based diabetes prevention curriculum for Native American school children. As part of the overall evaluation (before the curriculum is pilot tested), it will be important to understand the community context and identify implementation issues. Through a series of qualitative interviews with key informants, the study will obtain information about: (1) The community's experience with diabetes; (2) community readiness to adopt the DETS curriculum; (3) the connection between the DETS project and the community; and (4) the best fit between the curriculum and community schools.

The participants for this study will include key informants in five categories: Community leaders, DETS Advisory Board members, DETS Curriculum Subcommittee members, community teachers, and community parents. Potential participants will be identified by DETS Subcommittee members and invited to participate in this research activity. These individuals will be invited to participate because they are already involved in the project and are familiar with the curriculum.

A maximum of 18 individuals from each category will be interviewed for a total of 90 participants. All participants will be adults, both male and female, over the age of 18. It is expected that approximately 75% of participants will be Native American and 25% will be non-Native American. There is no cost to respondents other than their time.

Estimate of Annualized Burden Table:

Respondent	Number of respondents	Number of responses per respondent	Avg. burden per response (in hours)	Total burden hours
Community Leaders/Elders	18	1	45/60	13.5
Parents	18	1	45/60	13.5
Teachers	18	1	45/60	13.5
DETS Curriculum Subcommittee Members	18	1	45/60	13.5
DETS Advisory Board Members	18	1	45/60	13.5
Totals:	90	67.5

Dated: March 21, 2005.

Betsey Dunaway,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Privacy Act of 1974, as Amended; Computer Matching Program

AGENCY: Office of Child Support Enforcement (OCSE), ACF, DHHS.

ACTION: Notice of a computer matching program.

SUMMARY: In compliance with the Privacy Act of 1974, as amended by Pub. L. 100-503, the Computer Matching and Privacy Protection Act of 1988, we are publishing a notice of a computer matching program that OCSE will conduct on behalf of itself and the District of Columbia Department of Human Services, Income Maintenance Administration (IMA) for verification of

continued eligibility for Public Assistance. The match will utilize National Directory of New Hire (NDNH) records and IMA records. The purpose of the computer matching program is to exchange personal data for purposes of identifying individuals who are employed and also are receiving payments pursuant to the Temporary Assistance for Needy Families (TANF) benefit program administered by IMA.

DATES: OCSE will file a report of the subject OCSE matching program with the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Government Reform of the House of Representatives, and the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). The matching program will be effective as indicated below.

ADDRESSES: Interested parties may comment on this notice by writing to the Director, Office of Federal Systems, Office of Child Support Enforcement, Aerospace Building, 370 L'Enfant Promenade, SW., Washington, DC 20047. All comments received will be

available for public inspection at this address.

FOR FURTHER INFORMATION CONTACT:

Director, Office of Federal Systems, Office of Child Support Enforcement, Aerospace Building, 370 L'Enfant Promenade, SW., Washington, DC 20047. Telephone Number (202) 401-9271.

SUPPLEMENTARY INFORMATION: Pub. L. 100-503, the Computer Matching and Privacy Protection Act of 1988, amended the Privacy Act (5 U.S.C. 552a) by adding certain protections for individuals applying for and receiving Federal benefits. The law regulates the use of computer matching by Federal agencies when records in a system of records are matched with other Federal, state and local government records.

The amendments require Federal agencies involved in computer matching programs to:

1. Negotiate written agreements with source agencies;
2. Provide notification to applicants and beneficiaries that their records are subject to matching;
