

nonexempt subcontracts and purchase orders, and describes generally the sanctions, penalties, and remedies that may be imposed if the contractor fails to satisfy its obligations under the Order and the clause.

The regulatory provisions implementing E.O. 13496 (29 CFR part 471) include the language of the required notices, and they explain posting and contractual requirements, the complaint process, the investigatory process, and sanctions, penalties, and remedies that may be imposed if the contractor or subcontractor fails to comply with its obligations under the Order. Specifically, 29 CFR part 471.11(c) sets forth the procedures that the Department must use when accepting written complaints alleging that a contractor doing business with the Federal government has failed to post the notice required by the Executive Order.

The Department continues to estimate a total of 10 respondents with an equal amount of responses. Since the ICR was last approved in 2019, the Department has received 1 complaint. The Department maintains the estimate of 10 complaints for purposes of this renewal request. The Department continues to estimate that it will take an employee 1.28 hours per complaint, for a total of 12.8, rounded to 13 hours.

Additionally, employees will incur costs of \$0.62 per complaint in capital/start-up costs (\$0.58 for standard-sized, rectangular envelopes postage in January 2022¹ + \$0.03 for an envelope + \$0.01 for paper) for a total cost of \$6.20. (Although employees will submit many if not all complaints via email, the Department assumes, conservatively, that it will receive all via mail.) The total cost for the estimated 10 complaints is therefore \$6.20. There are no ongoing operation/maintenance costs associated with this information collection.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a

collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.
