This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This new shipper review is issued and published in accordance with sections 751(a)(2)(B)(iv) and 777(i)(1) of the Act, as well as 19 CFR 351.214(i).

BILLING CODE 3510-DS-S

DEPARTMENT OF DEFENSE**Department of the Army, Corps of Engineers**

Intent To Prepare a Second Supplemental Environmental Impact Statement to the Final EIS on Herbert Hoover Dike Major Rehabilitation and Evaluation Report, Reaches 2 and 3 (Belle Glade to Moore Haven), in Palm Beach, Hendry, and Glades Counties, FL

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: Herbert Hoover Dike is the levee and water control system that provides flood protection to communities surrounding Lake Okeechobee. The purpose of this project is to evaluate rehabilitation solutions for Reaches 2 and 3 of the dike so that the authorized level of flood protection can be provided to reduce the risk of a catastrophic failure or breach of the embankment. Reaches 2 and 3 of the HHD extend for approximately 27 miles between an area west of Belle Glade, Palm Beach County to east of Moore Haven, Glades County, FL. On July 8 2005, the Jacksonville District, U.S. Army Corps of Engineers (Corps) issued a Final Supplemental Environmental Impact Statement (FSEIS) for the Major Rehabilitation actions proposed for Herbert Hoover Dike (HHD), Reach 1. On September 23, 2005, a Record of Decision was signed adopting the preferred alternative as the Selected Plan for Reach 1.

The preferred plan described in the draft SEIS for the MRR Reaches 2 and 3 was based on the Reach 1 preferred plan. However, as designs were optimized during development of the plans and specifications for Reach 1, it became apparent that a cutoff wall in combination with a seepage berm would not work for all of Herbert Hoover Dike. The alternative for Reaches 2 and 3 will be a combination of a cutoff wall with a seepage berm and a relief feature such as a Relief Trench, Soil Replacement Wedge, Relief Wells, Drainage Feature, or Sand Columns. The specific features selected and dimension of the features will be site specific, dependent on the local geology and site conditions along Reaches 2 and 3. This study is a cooperative effort between the Corps and the South Florida Water Management District (SFWMD).

ADDRESSES: U.S. Army Corps of Engineers, Planning Division, Environmental Branch, P.O. Box 4970, Jacksonville, FL 32232-0019.

FOR FURTHER INFORMATION CONTACT: Ms. Angela Dunn at (904) 232-2108 or e-mail at Angela.E.Dunn@usace.army.mil.

SUPPLEMENTARY INFORMATION:

a. The proposed action will be the selected plan described in the July 2005 Supplemental Environmental Impact Statement (SEIS) with the additional actions of: Extending construction along Reaches 2 and 3 of the levee and implementing the landside rehabilitation features as needed based on geology and adjacent land factors. The proposed action will not affect the Regulation Schedule for Lake Okeechobee. Land may have to be acquired outside of the existing right-of-way (ROW) and this SEIS will account for any impacts that result due to acquisition of additional real estate.

b. The preferred plan design will be optimized according to the local geology and site conditions along Reaches 2 and 3. The features that may be part of the preferred plan include: Cutoff Wall, Seepage Berm, Relief Trench, Soil Replacement Wedge, Relief Wells, Sand Column and Drainage Feature.

c. A scoping letter will be used to invite comments on alternatives and issues from Federal, State, and local agencies, affected Indian tribes, and other interested private organizations and individuals. A Scoping Letter describing the proposed project and soliciting comments was sent to government agencies, non-governmental agencies, Indian Tribes and the interested public on August 10, 2006. A scoping meeting is not anticipated.

d. A public meeting will be held after release of the Draft SEIS; the exact location, date, and times will be announced in a public notice and local newspapers.

e. A Major Rehabilitation Evaluation Report (MRR) was approved by Congress in the Water Resources Development Act (WRDA) 2000 that addressed the need to repair the aging dike.

f. *Draft SEIS Preparation:* The 2nd DSEIS is expected to be available for public review in the first quarter of CY 2010.

Dated: August 19, 2009.

Kenneth R. Dugger,

Acting Chief, Environmental Branch.

DELAWARE RIVER BASIN COMMISSION

Notice of Public Hearing on Chesapeake Appalachia, LLC Surface Water Withdrawal Project

Notice is hereby given that the Delaware River Basin Commission (DRBC or "Commission") will hold a public hearing on Wednesday, September 23, 2009 on revised proposed Docket No. D-2009-20-1 for Chesapeake Appalachia, LLC (also, "Chesapeake"). The hearing will be held at the PPL Corporation Wallenpaupack Environmental Learning Center, 126 PPL Drive, Hawley, Pennsylvania 18428-0122. The hearing will begin at 10 a.m. and will continue until all those who wish to speak have had an opportunity to do so. No other Commission business will be conducted at the September 23, 2009 hearing.

Chesapeake Appalachia, LLC applied to the Commission for approval of a surface water withdrawal project to supply a maximum of 29.99 mg/30 days of water for the applicant's exploration and development of natural gas wells in the State of New York and the Commonwealth of Pennsylvania. Surface water is proposed to be withdrawn from the West Branch of the Delaware River at a location known as the Cutrone Site in Buckingham Township, Wayne County, Pennsylvania. The project is located in the Delaware River Watershed within the drainage area of the section of the non-tidal Delaware River known as the Upper Delaware, which is designated as Special Protection Waters.

The Commission held a public hearing on an initial draft of Docket D-2009-20-1 at its business meeting of July 15, 2009 in Bethlehem, Pennsylvania. It heard testimony on the draft docket from approximately 40 witnesses on that date. Voluminous written comment was submitted on or before the July 15 hearing. In light of the high level of public interest in the project, the Commission took no action on the docket on July 15, and on that date it extended the written comment period through July 29, 2009. Approximately 1,200 written comments (excluding petitions) were received on the docket by the close of the comment period. After review and consideration

of these comments, the Commission and staff are developing a revised draft docket, which will be posted on the Commission's Web site, <http://www.drbc.net>, on or before the close of business on Friday, September 11, 2009. Public comment is requested on those aspects of the docket that have been substantively modified. A list of these aspects will be provided on the Commission's Web site at the time the revised draft is posted.

Additional public records relating to the draft Chesapeake docket are available for review consistent with Article 8 of the Commission's Rules of Practice and Procedure (RPP) governing public access to records and information. The RPP are also available on the Commission's Web site, <http://www.drbc.net>.

Individuals in need of an accommodation as provided for in the Americans with Disabilities Act who wish to attend the hearing should contact the commission secretary directly at 609-883-9500 ext. 203 or through the Telecommunications Relay Services (TRS) at 711, to discuss how the Commission can accommodate your needs.

Dated: August 25, 2009.
