The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021–2026 Passenger Cars and Light Trucks

AGENCY: Environmental Protection Agency and National Highway Traffic Safety Administration.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects information in the proposed rule published in the August 24, 2018 issue of the **Federal Register** entitled The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021–2026 Passenger Cars and Light Trucks. Specifically, a table in the Paperwork Reduction Act section is corrected; two minor changes are made to one amendatory instruction in NHTSA's regulatory text, and the coefficients specifying the proposed carbon dioxide standards in EPA's regulatory text have been corrected to reflect EPA's proposal to exclude credits for direct A/C emissions for purposes of compliance

with carbon dioxide standards after model year 2020, as explained in Section III of the proposed rule. This document contains only clerical corrections and makes no updates to either the proposal or to the analysis underlying the proposal. For the reader's information, an updated Preliminary Regulatory Impact Assessment (PRIA) will also be made available concurrent with this notice; that document will include descriptions starting on the second page detailing the corrections to various tables and figures therein.

DATES: Comments for the proposed rule must be received on or before October 26, 2018.
