ENVIRONMENTAL PROTECTION AGENCY

[FRL-6935-9]

Control of Emissions From New and In-use Highway Vehicles and Engines

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for comment.

SUMMARY: EPA requests public comment on a petition submitted by the International Center for Technology Assessment (CTA) and a number of other groups. The petition requests that EPA regulate emissions of carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), and hydrofluorocarbons (HFCs) from new motor vehicles and engines under section 202(a)(1) of the Clean Air Act (CAA or Act). The petitioners assert that emissions of these greenhouse gases contribute to global warming which may reasonably be anticipated to endanger public health and welfare. EPA has already received requests from a variety of stakeholders asking that we provide an opportunity to comment on this petition. To ensure wide exposure of the issues presented in the petition, EPA today requests comment on the issues raised by the petition and how EPA should respond to the petition. EPA has already established a public docket, and a number of comments on the petition have already been submitted and are available for inspection and public comment. The documents include several comments in opposition to the petition, including comments submitted by the Center for Regulatory Effectiveness, the American Petroleum Institute on behalf of 26 associations, and other commenters.

DATES: Comments must be received on or before May 23, 2001.

ADDRESSES: Interested parties may submit written comments (in triplicate if possible) to: EPA Air and Radiation Docket, Attention Docket No. A-2000-04, Room M-1500 (Mail Code-6102), 401 M St., SW, Washington, DC 20460.

Comments may also be submitted by electronic mail to: *A-and-R-Docket@epa.gov*. The docket may be inspected at this location from 8:30 a.m. until 5:30 p.m. weekdays. Docket information may also be obtained by calling (202) 260-7548. As provided in 40 CFR part 2, EPA may charge a reasonable fee for photocopying.

FOR FURTHER INFORMATION CONTACT: Debbie Wood, Office of Transportation and Air Quality, Transportation and Regional Programs Division, (202) 564-8991.

SUPPLEMENTARY INFORMATION:

I. Summary of the Petition

On October 20, 1999, CTA, heading a coalition of 19 groups,¹ petitioned EPA to regulate certain greenhouse gas emissions from new motor vehicles and engines under section 202(a)(1) of the Clean Air Act. The petition, submitted pursuant to the First Amendment, the Administrative Procedure Act, and the Clean Air Act, requests that EPA regulate CO₂, CH₄, N₂O, and HFC emissions from new motor vehicles and engines. Petitioners state that U.S. mobile sources are responsible for a significant amount of greenhouse gas emissions. Petitioners urge EPA to reduce adverse human health and environmental effects from global warming by regulating these emissions.

Petitioners argue that EPA must regulate greenhouse gas emissions from new motor vehicles and engines under CAA section 202(a)(1). First, they assert that the four greenhouse gases listed above constitute "air pollutants" as defined by the Act in section 302(g). Second, they argue that the emission of greenhouse gases contributes to pollution that is reasonably anticipated to endanger public health and welfare, the criteria for regulation under section 202(a)(1).
