II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “NRC Forms 540 and 540A, Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on August 10, 2022 (87 FR 48700).

1. *The title of the information collection:* NRC Forms 540 and 540A, Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page.

2. *OMB approval number:* 3150–0164.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* NRC Forms 540 and 540A.

5. *How often the collection is required or requested:* NRC Form 540 and 540A, or the Agreement State equivalent forms, are used by low-level radioactive waste (LLW) shippers when LLW is shipped. NRC Form 540/540A, combined with NRC Forms 541/541A and 542/542A, are collectively referred to as the Uniform Low-Level

Radioactive Waste Manifest forms. The disposal facilities and their Agreement State regulators, where applicable, use the information found on the forms to ensure waste disposal meets the requirements in part 61 of title 10 of the *Code of Federal Regulations* (10 CFR) for the protection of the public and environment. The NRC does not collect or retain data on the forms and the forms are not sent to or received by the NRC. NRC Form 541/541A and NRC Form 542/542A are (1) mailed or electronically transferred to the intended consignee prior to the shipment arriving at the consignee or (2) delivered with the waste to the consignee. NRC Form 540 and 540A are required to be with the shipment regardless of which of the above methods is chosen.

6. *Who will be required or asked to respond:* NRC Form 540 and continuation Form 540A are completed by generators, collectors, and processors of LLW intended for ultimate disposal at a licensed land disposal facility.

7. *The estimated number of annual responses:* 4,616.

8. *The estimated number of annual respondents:* 712.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 3,462.

10. *Abstract:* The completed NRC Form 540 contains information needed to satisfy the Department of Transportation shipping paper requirements in 49 CFR part 172 and the waste manifesting requirements of the NRC’s 10 CFR part 20. NUREG/BR–0204, Rev. 3, contains instructions for completing NRC Forms 540, 540A, 541, 541A, 542, and 542A. The forms were originally developed by the NRC at the request of low-level waste industry groups. The forms are intended to provide uniformity and efficiency in the collection of information contained in manifests which are required to control transfers of LLW intended for disposal at a land disposal facility. However, as stated in 10 CFR part 20, appendix G, “Licensees need not use originals of these NRC Forms as long as any substitute forms are equivalent to the original documentation in respect to content, clarity, size, and location of information . . .” The NRC previously noticed the availability of revisions to the Uniform Low-Level Radioactive Waste Manifest Forms in the **Federal Register** on June 25, 2021 (86 FR 33783). The information collection contained in the current extension request does not include any material changes to the forms, except for: (1) changes to the Paperwork Reduction Act statement to

indicate that licensees may use equivalent forms, and (2) the deletion of the expiration date.
